Revelation 7X7 Oct 23 2021 Difficult times lie ahead for the world and for the church. The Book of Revelation tells about that time; and about the final struggle between the church and the evil of the world. Revelation 7x7 looks at the Book of Revelation as a series of seven visions folded into one, each with its own story to tell. The seven visions within the Revelation speak of the signs of the times, define the church, and describe God's plan for his people in the time of the end. In Revelation 7x7, the real Mark of the Beast is discussed; and the need to refuse it is emphasized. We also search the nations and organizations in the world around us for the nation-beast of Revelation; and for Babylon. And most importantly, we explore how to prepare for the time that lies ahead. In short, this book will be a help to those who would be Overcomers!

Wider das Vergessen Nov 23 2021 Die biblischen Psalmen sind zutiefst jüdisches Kulturgut. Sie bringen vor Gott, was Menschen bewegt, auch tiefstes Leid. Die Stelen des Holocaust-Denkmal in Berlin mahnen stumm. Das Grauen von damals in Worte zu fassen - Irmgard Powierski hat sich als Christin dieser Aufgabe gestellt. In 49 Psalmen nimmt sie den Leser mit hinein in das Leiden der Erniedrigten und Verfolgten in Auschwitz und an anderen Stätten des Grauens. Sie schöpft aus der Tradition des Psalters, der dem Reden Raum gibt, wo wir betroffen, bedrückt, beschämt schweigen. Irmgard Powierski gestaltet aus mitfühlender Erinnerung zugleich Wegweisung, Ermutigung zur Klage, Trost und Hilfe. Esther Bejarano, die das Grauen von Auschwitz als Angehörige des Mädchenorchesters überlebte, adelt diesen Versuch, wenn sie sagt: "So wie die Psalmen von Irmgard Powierski es ausdrücken, haben Leidende, Glaubende, Zweifelnde in Auschwitz gedacht, gesprochen und gesungen. Ich sehe mich mit der Autorin solidarisch im Wirken wider das Vergessen."

Biological and Oceanographic Observations in the Central North Pacific July-September 1958 Feb 01 2020

This report contains the biological (including fishing) and oceanographic data collected in the central North Pacific during the July-September 1958 period from the U.S. Bureau of Commercial Fisheries research vessel Hugh M. Smith and the M/V Paragon. The latter made a commercial-scale gill-net survey for albacore under a contract with the Bureau. Scientists and crew aboard the former collected oceanographic, biological, and fishing data to permit a comparison of conditions in 1958 with those of previous years.

The major effort of both vessels was in the area between 155° and 175° W longitude and from 41° to 48°N. latitude.
