teachers, are actively engaged in moral training. This book has been written in the belief that a clear comprehension of what really makes up human character would be one of the first and best aids to the actual worker. The whole plan and style of the work, including the selection of material, - and the omission of many things, - have been determined by this practical aim. This statement is not meant as an excuse for inaccuracies or fallacies, which I have endeavored scrupulously to avoid. The ruling idea in my own mind throughout, and I hope in the book, is what may be called the dynamic and

taking a holistic approach that includes both "soft" and "hard" aspects. It provides a broad perspective on the field, rather than one based on a single viewpoints from Computer Science or Organizational Learning, offering a comprehensive and integrated conception of Knowledge Management. The chapters represent the best Knowledge Management

articles published in the 21st century in Knowledge Management Research & Practice and the European Journal of Information Systems, with contributors including Ikujiro Nonaka, Frada Burstein, and David Schwartz. Most of the chapters contribute significantly to practise as well as theory. The OR Essentials series

presents a unique cross-section of high quality research work fundamental to understanding contemporary issues and research across a range of Operational Research topics. It brings together some of the best research papers from the highly respected journals of the Operational Research Society, also published by Palgrave Macmillan.
