You Choose: The Salem Witch Trials Jun 17 2021 The colony of Massachusetts in 1692 was a harsh place. Disease, hunger, and the threat of war made life stressful. Colonists clung to their religious faith and looked for someone to blame. Some accused their fellow colonists of causing the troubles through the practice of witchcraft. The hysteria spread until no one was safe. Will you: Attempt to defend yourself against charges of witchcraft? Try to keep your family together as your mother is put on trial? Mind Your Own Business Nov 10 2020 *Companion to Heidegger's Contributions to Philosophy* Aug 27 2019 The publication of the first English translation of Martin Heidegger's *Beiträge zur Philosophie (Vom Ereignis)* marked a significant event for Heidegger studies. Considered by scholars to be his most important work after *Being and Time*,

Contributions to Philosophy (From Enowning) elaborates what Heidegger calls "being-historical-thinking," a project in which he undertakes to reshape what it means both to think and to be. *Contributions* is an indispensable book for scholars and students of Heidegger, but it is also one of his most difficult because of its aphoristic style and unusual language. In this Companion 14 eminent Heidegger scholars share strategies for reading and understanding this challenging work. Overall approaches for becoming familiar with Heidegger's unique language and thinking are included, along with detailed readings of key sections of the work. Experienced readers and those coming to the text for the first time will find the Companion an invaluable guide to this pivotal text in Heidegger's philosophical corpus.

Ambrose and John Chrysostom Jan 13 2021 J. H. W. G. Liebeschuetz compares the personalities and the respective careers of two of the greatest of the early Christian Fathers, Ambrose and John Chrysostom. While the statesmanlike Ambrose ended his life as a pillar of the Western establishment, Chrysostom, the outspoken idealist, died in exile. However, their views and ideals were remarkably similar: both bishops were concerned with the social role of the Church, both were determined opponents of what they called the Arian heresy, and each attracted a dedicated following among his urban congregation. This similarity, Liebeschuetz argues, was due not to the influence of one on the other, but was a consequence of their participation in a Christian culture which spanned the divide between the Eastern (later Byzantine) and

Western parts of the Roman Empire. The monastic movement figures throughout the book as an important influence on both men and as perhaps the most dynamic development in the Christian culture of the fourth century. "Right Makes Might" Nov 30 2019 In 1860 Abraham Lincoln employed the proverb, Right makes might, (opposite of the more aggressive Might makes right) in his famed Cooper Union address. While Lincoln did not originate the proverb, his use of it in this critical speech indicates that the 14th century phrase had taken on new ethical and democratic connotations in the 19th century. In this collection, famed scholar of proverbs Wolfgang Mieder explores the multifaceted use and function of proverbs through the history of the United States, from their early beginnings up through their use by today's well-known politicians, including Barack Obama, Hillary Rodham Clinton, and Bernie Sanders. Building on previous publications and unpublished research, Mieder explores sociopolitical aspects of the American worldview as expressed through the use of proverbs in politics, women's rights, and the civil rights movement. By looking at the use of proverbial phrases, Mieder demonstrates how one traditional phrase can take on numerous expressive roles over time and how they continue to play a key role in our contemporary moment.

Haraka, Haraka-- Look Before You Leap Jan 25 2022 When members of the Reproductive Health Study Group at the University of Dar es Salaam conducted their first set of studies, they focused on the plight of teenage girls. In undertaking this second set of studies they have widened their focus to include the social institutions that regulate reproduction, initiation into adulthood, marriage, and parental obligations. Differences in social and economic assets, in worldview and aspirations, in the perception of modernity and its offerings in the rate at which traditional life collapses and the demands of modernity assert themselves, result in social conflict and ambiguity. These are the main themes addressed by the authors of Haraka, Hakaka... Look before you leap.
