Quarter Life Poetry May 29 2022 Samantha Jayne
weiß, dass das Leben nach der Uni alles andere als
glamourös ist. Während alle anderen Kinder kriegen,

den Traumjob ergattern und den Studienkredit abbezahlen, spricht ihre Poetry mit kongenialen Illustrationen für alle, die verstanden haben, dass das hier nicht »die besten Jahre deines Lebens« sind. Quarter Life Poetry zeigt die Struggles einer Generation zwischen Dating-Apps, ziemlich mittelmäßigem Sex und schlecht bezahlten Jobs. Einer Generation, die so witzig, cool und selbstironisch an sich zweifelt, wie es noch keine vor ihr getan hat.

Buying and Selling Civil War Memory in Gilded Age America Feb 11 2021 Buying and Selling Civil War Memory explores the ways in which Gilded Age manufacturers, advertisers, publishers, and others commercialized Civil War memory. Advertisers used images of the war to sell everything from cigarettes to sewing machines; an entire industry grew up around uniforms made for veterans rather than soldiers; publishing houses built subscription bases by tapping into wartime loyalties; while old and young alike found endless sources of entertainment that harkened back to the war. Moving beyond the discussions of how Civil War memory shaped politics and race relations, the essays assembled by James Marten and Caroline E. Janney provide a new framework for examining the intersections of material culture, consumerism, and contested memory in the everyday lives of late nineteenth-century Americans. Each essay offers a case study of a product, experience, or idea related to how the Civil War was remembered and memorialized.

Taken together, these essays trace the ways the buying and selling of the Civil War shaped Americans' thinking about the conflict, making an important contribution to scholarship on Civil War memory and extending our understanding of subjects as varied as print, visual, and popular culture; finance; and the histories of education, of the book, and of capitalism in this period. This highly teachable volume presents an exciting intellectual fusion by bringing the subfield of memory studies into conversation with the literature on material culture. The volume's contributors include Amanda Brickell Bellows, Crompton B. Burton, Kevin R. Caprice, Shae Smith Cox, Barbara A. Gannon, Edward John Harcourt, Anna Gibson Holloway, Jonathan S. Jones, Margaret Fairgrieve Milanick, John Neff, Paul Ringel, Natalie Sweet, David K. Thomson, and Jonathan W. White.

Motivational Enneagram Type Test Jul 27 2019 This carefully designed type test is called motivational, so it is fundamentally based on human motivation. For a more reliable indication of the Enneatype it is absolutely necessary to determine the true essential basic motivation of a person. In addition, one can use the purely psychological action and behavioral patterns of a person only conditionally, but it is more important to determine what is underlying the action; that is, the so-called intrinsic motivation. For this reason, in Enneagram circles the saying goes: The behavior is nothing - the motivation is EVERYTHING! Most of the

Enneagram type tests, however, are primarily based on focusing on the behavior of a person to be typed, so that false typing will always occur. In contrast, in this Motivational Enneagram Type Test, the focus of the 100 test questions is on the underlying motivational basic structures of personality, i.e. on the "why" of the specific behavioral and action patterns of humans. This makes it a reliable type test for determining one`s own Enneatype!

Running Past Fifty Jul 19 2021 Tips and motivation for older runners, including advice from marathon winners, world record holders, and more. Running brings joy and health benefits—but when legs get sore, joints feel achy, and old age creeps up, sometimes older runners need a little extra motivation to hit the road. In *Running Past Fifty*, lifelong runner Gail Waesche Kislevitz provides helpful tips from thirty-six runners aged fifty or older. Gathering time-tested recommendations, Kislevitz interviews some of the nation`s greatest senior runners. Included are exclusive interviews with greats such as Ed Whitlock, who, at eighty-five, set an age-division world record of 3:56 in the marathon; Bill

Rodgers, winner of four Boston Marathons and four New York City Marathons; George Hirsch, chairman of New York Road Runners; Olympian and author Jeff Galloway; world record holder Sid Howard; and women's running pioneer and advocate Kathrine Switzer. And legendary runners aren't the only ones running well into seniority. Kislevitz also offers motivational stories from regular runners who refuse to let their age slow them down—or stop them from competing.

Sanathana Sarathi English Volume 07 (2012 - 2021)

May 17 2021 Started in 1958, Sanathana Sarathi is a monthly magazine devoted to Sathya (Truth), Dharma (Righteousness), Shanti (Peace) and Prema (Love) - the four cardinal principles of Bhagawan Baba's philosophy. It is published from Prasanthi Nilayam (the Abode of Highest Peace) and acts as a mouthpiece of Baba's Ashram as it speaks of the important events that take place in His sacred Abode, besides carrying Divine Messages conveyed through Divine Discourses of Bhagawan Sri Sathya Sai Baba. The word meaning of Sanathana Sarathi is the 'Eternal Charioteer'. It signifies the presence of the Lord in every being as the atma guiding their lives like a charioteer. It implies that he who places his life, the body being likened to a chariot, in an attitude of surrender in the hands of the Lord, will be taken care of by the Lord even as a charioteer would take the occupant of his chariot safely to its destination. The magazine is an instrument to

disseminate spiritual knowledge for the moral, physical and mental uplift of humanity without any discrimination as the subject matter discussed therein is always of common interest and of universal appeal. The fifteen Vahinis - streams of sacredness - known as the Vahini Series comprising annotation and interpretation of the Upanishads and other scriptures, Itihasas like the Ramayana, the Bhagavatha and the Mahabharata, and authentic explanations on Dhyana, Dharma, Prema, etc., have been serially published in this magazine as and when they emanated from the Divine pen of Bhagawan Baba. This magazine is published in almost all Indian languages, English and Telugu from Prasanthi Nilayam and others from respective regions. Every year Sanathana Sarathi comes out with a special issue in November commemorating the Divine Birthday. The English and Telugu magazines are posted on the 10th and 23rd respectively, of every month, from Prasanthi Nilayam. This magazine has wide, ever increasing circulation in India as well as abroad, as the study of it brings the reader closer to the philosophy of the Avatar in simple understandable language THUS SPAKE SAI... Discoursing during the launch of Sanathana Sarathi... From this day, our Sanathana Sarathi will lead to victory the cohorts of truth - the Vedas, the Sastras and similar scriptures of all faiths, against the forces of the ego such as injustice, falsehood, immorality and cruelty. This is the reason why it has emerged. This Sarathi will fight in

order to establish world prosperity. It is bound to sound the paean of triumph when universal Ananda is achieved.

The Violence of Neoliberalism Jan 01 2020 This book examines the impact of neoliberalism on society, bringing to the forefront a discussion of violence and harm, the inherent inequalities of neoliberalism and the ways in which our everyday lives in the Global North reproduce and facilitate this violence and harm.

Drawing on a range of contemporary topics such as state violence, the carceral state, patriarchy, toxic masculinity, death, sports and entertainment, this book unmaskes the banal forms of violence and harm that are a routine part of life that usurp, commodify and consume to reify the existing status quo of harm and inequality. It aims to defamiliarize routine forms of violence and inequality, thereby highlighting our own participation in its perpetuation, though consumerism and the consumption of neoliberal dogma. It is essential reading for students across criminology, sociology and political philosophy, particularly those engaged with crimes of the powerful, state crime and social harm.

Old Muslim Calendars of Southeast Asia Oct 29 2019 It has been said that "a modern arrogance has blocked our access to the history of the Muslim calendar in Southeast Asia." Without at least the outlines of that history, we simply do not understand the basis of dates found in Malay sources. Also, without a history of Malay

calendars we are denied an understanding of the context from which the Javanese Muslim calendar arose. This volume, the result of combining empirical evidence with a sound understanding of the structural requirements of calendar-making, and of the mechanisms through which these needs could be met, for the first time explains how these old octaval calendars actually worked. It traces the history of Muslim calendars in Southeast Asia, and attempts to put them into their historical and cultural context. Understanding the old calendars will at last throw light on a number of essential aspects of older Malay science and culture. An accompanying interactive CD-ROM presents the reader with a tool for converting Malay and Javanese dates, with access to the range of variant calendars.

The Oxford Handbook of Media, Technology, and Organization Studies Oct 10 2020 Our most basic relationship with the world is one of technological mediation. Nowadays our available tools are digital, and increasingly what counts in economic, social, and cultural life is what can be digitally stored, distributed, replayed, augmented, and switched. Yet the digital remains very much materially configured, and though it now permeates nearly all human life it has not eclipsed all older technologies. This Handbook is grounded in an understanding that our technologically mediated condition is a condition of organization. It maps and theorizes the largely uncharted territory of media, technology, and organization studies. Written by scholars of organization and theorists of media and technology, the chapters focus on specific, and specifically mediating, objects that shape the practices, processes, and effects of organization. It is in this spirit that each chapter focuses on a specific technological

object, such as the Battery, Clock, High Heels, Container, or Smartphone, asking the question, how does this object or process organize? In staying with the object the chapters remain committed to the everyday, empirical world, rather than being confined to established disciplinary concerns and theoretical developments. As the first sustained and systematic interrogation of the relation between technologies, media, and organization, this Handbook consolidates, deepens, and further develops the empirics and concepts required to make sense of the material forces of organization.

Phenomenology of the Gameworld: A Philosophical Toolbox for Video Game Developers May 05 2020

The human mind is the most powerful game engine – but it can always use some help. This book is meant for developers who want to create games that will evoke richer and more memorable “gameworlds” in the minds of their players. We don’t just enter such unforgettable gameworlds when we play first-person 3D RPGs with high-resolution graphics; even relatively simple 2D puzzle or strategy games with 8-bit-style visuals can immerse players in worlds that are beautiful, terrifying, mysterious, or moving, that are brutally realistic or delightfully whimsical. Indeed, good video games can transport us to incredible new worlds. The process by which a particular gameworld emerges is a symbiotic collaboration between developer and player: the game system presents a carefully architected stream of polygons and pixels, which somehow leads the player’s

mind to construct and explore an intricate world full of places, people, relationships, dilemmas, and quests that transcends what's actually appearing onscreen. Drawing on insights from ontology and philosophical aesthetics, this volume provides you with conceptual frameworks and concrete tools that will enhance your ability to design games whose iconic gameworlds encourage the types of gameplay experiences you want to offer your players. Among other topics, the book investigates:

- The unusual ways in which a gameworld's contents can "shrink" or "grow" in players' minds, depending on whether the players are mentally positioned within a game's social space, cultural space, built space, or tactical space.
- The manner in which players' minds spontaneously "concretize" the countless gaps that exist in a game – and how this dynamic explains why so many players still enjoy 8-bit-style games with retro pixel art.
- The differing ways in which players experience success and failure, danger and safety, good and evil, the future and the past, the known and the unknown, and engagement and retreat, depending on whether a game reveals its gameworld through a "1D" game environment (like that of a text-based adventure), 2D environment (like that of a sidescroller or a grand strategy game with a top-down map view), 2.5D environment (like that of an isometric turn-based tactics game) or 3D environment (like that of a first-person shooter).
- The powerful way in which players are able to mentally "explore" a gameworld

simply by shifting their conscious awareness between different senses, media, ontological strata, and constituent spaces – without needing to travel through the gameworld’s terrain at all. · Necessary and optional elements of the gameworld – from built areas, natural landscapes, laws of nature, and a cosmogony to the game’s player and designer – and their roles in shaping the gameplay experience. · How to strategically employ the architectural paradigms of the Cyberspatial Grid, Maze Space, Biomimetic Net, Simulacral World, Virtual Museum, and Protean World when architecting locales within your game, in order to evoke particular kinds of emotional gameplay experiences for your players. · The nature of the unique “sixth sense” that 2D games grant to player characters (and players). · Simple techniques for helping your 2D game to “feel” more like a 3D game. · The differing kinds of immersiveness, interactivity, and determinacy possessed by different types of games and their implications for the gameplay experience. Once you’ve undertaken this philosophical and artistic journey, you’ll never look at your games – or their gameworlds – in quite the same way again.

Phenomenology of the Gameworld is a book by the award-winning video game designer, philosopher, and writer Matthew E. Gladden. He has over 20 years of experience with commercial and non-commercial game development, has published numerous scholarly and popular works relating to the philosophy of video game design, virtual reality, and neurocybernetics, and has

served as a video game conference keynote speaker.

Nalas Welt Jan 25 2022 Zwei freie Geister. Eine lebensverändernde Freundschaft. Eine ganze, weite Welt zu entdecken. Als Dean von seiner Heimat Schottland aus zu einer Weltreise aufbrach, wollte er so viel wie möglich über den Zustand unseres unruhigen Planeten erfahren. Er war schon eine Weile unterwegs, hatte keinen richtigen Plan mehr und etwas Heimweh, als er auf einem Berg zwischen Bosnien und Montenegro auf ein zerrupftes Kätzchen mit klaren Augen und struppigem Fell traf. Dean nahm das kleine Bündel an Bord, nannte es Nala, und seitdem sind die beiden unzertrennlich. Gemeinsam erleben sie unvergessliche Freundschaften und die unglaubliche Freundlichkeit von Fremden, sie retten Hunde, säubern Strände und verbringen Zeit mit Flüchtlingen. Wo sie hinkommen, bewegen sie etwas im Leben der Menschen, die ihnen begegnen. Ihre Clips auf TheDodo und Youtube bezaubern die Menschen auf der ganzen Welt. "Bevor ich mich auf diese epische Fahrradreise begab, drohte ich den falschen Weg in meinem Leben einzuschlagen. Der lange Weg zur Freiheit Jan 13 2021 »Ich bin einer von ungezählten Millionen, die durch Nelson Mandelas Leben inspiriert wurden.« Barack Obama Eine fast drei Jahrzehnte währende Gefängnishaft ließ Nelson Mandela zum Mythos der schwarzen Befreiungsbewegung werden. Kaum ein anderer Politiker unserer Zeit symbolisiert heute in solchem Maße die Friedenshoffnungen der Menschheit und den Gedanken der Aussöhnung aller Rassen wie der ehemalige südafrikanische Präsident und Friedensnobelpreisträger. Auch nach seinem Tod finden seine ungebrochene Charakterstärke und Menschenfreundlichkeit die Bewunderung aller friedenswilligen Menschen auf der Welt. Mandelas Lebensgeschichte ist über die politische Bedeutung hinaus ein spannend zu lesendes, kenntnis- und faktenreiches Dokument menschlicher Entwicklung unter Bedingungen und Fährnissen, vor denen die meisten Menschen innerlich wie äußerlich kapituliert haben dürften.

Simon Marius and His Research Jun 25 2019 The margravian court astronomer Simon Marius, was involved in all of the new observations made with the recently invented telescope in the early part of the seventeenth century. He also discovered the Moons of Jupiter in January 1610, but lost the priority dispute with Galileo Galilei, because he missed to publish his findings in a timely manner. The history of astronomy neglected Marius for a long time, finding only the

apologists for the Copernican system worthy of attention. In contrast the papers presented on the occasion of the Simon Marius Anniversary Conference 2014, and collected in this volume, demonstrate that it is just this struggle to find the correct astronomical system that makes him particularly interesting. His research into comets, sunspots, the Moons of Jupiter and the phases of Venus led him to abandon the Ptolemaic system and adopt the Tychonic one. He could not take the final step to heliocentricity but his rejection was based on empirical arguments of his time. This volume presents a translation of the main work of Marius and shows the current state of historical research on Marius.

The Stuff of Spectatorship Apr 15 2021 Film and television create worlds, but they are also of a world, a world that is made up of stuff, to which humans attach meaning. Think of the last time you watched a movie: the chair you sat in, the snacks you ate, the people around you, maybe the beer or joint you consumed to help you unwind—all this stuff shaped your experience of media and its influence on you. The material culture around film and television changes how we make sense of their content, not to mention the very concepts of the mediums. Focusing on material cultures of film

and television reception, *The Stuff of Spectatorship* argues that the things we share space with and consume as we consume television and film influence the meaning we gather from them. This book examines the roles that six different material cultures have played in film and television culture since the 1970s—including video marketing, branded merchandise, drugs and alcohol, and even gun violence—and shows how objects considered peripheral to film and television culture are in fact central to its past and future.
