force by the most powerful states. Space is crucial to the politics of the postmodern world. It has seen competition and cooperation in the past fifty years, and is in danger of becoming a battlefield in the next fifty. The International Politics of Space is the first book to bring these crucial themes together and provide a clear and vital picture of how politically important space has become, and what its exploitation might mean for all our futures. Michael Sheehan analyses the space programmes of the United States, Russia, China, India and the European Space Agency, and explains how central space has become to issues of war and peace, international law, justice and international development, and cooperation between the worlds leading states. It highlights the significance of China and India's commitment to space, and explains how the theories and concepts we use to describe and explain space are fundamental to the possibility of avoiding conflict

schizophrenia—now reissued with a new postscript—follows a flamboyant and fiercely intelligent young woman as she struggles in the throes of mental illness. “Sylvia Frumkin” was born in 1948 and began showing signs of schizophrenia in her teens. She spent the next seventeen years in and out of mental institutions. In 1978, reporter Susan Sheehan took an interest in her and, for more than two years, became immersed in her life: talking with her, listening to her monologues, sitting in on consultations with doctors—even, for a period, sleeping in the bed next to her in a psychiatric center. With Sheehan, we become witness to Sylvia’s plight: her psychotic episodes, the medical struggle to control her symptoms, and the overburdened hospitals that, more often than not, she was obliged to call home. The resulting book, first published in 1982, was hailed as an extraordinary achievement: harrowing, humanizing, moving, and biting funny. Now, some two decades later,

A Bright Shining Lie Nov 22

2021 Outspoken, professional and fearless, Lt. Col. John Paul Vann went to Vietnam in 1962, full of confidence in America's might and right to prevail. He was soon appalled by the South Vietnamese troops' unwillingness to fight, by their random slaughter of civilians and by the arrogance and corruption of the US military. He flouted his supervisors and leaked his sharply pessimistic - and, as it turned out, accurate - assessments to the US press corps in Saigon. Among them was Sheehan, who became fascinated by the angry Vann, befriended him and followed his tragic and reckless career. Sixteen years in the making, *A Bright Shining Lie* is an eloquent and disturbing portrait of a man who in many

ways personified the US war effort in Vietnam, of a soldier cast in the heroic mould, an American Lawrence of Arabia. Blunt, idealistic, patronising to the Vietnamese, Vann was haunted by a shameful secret - the fact that he was the illegitimate son of a 'white trash' prostitute. Gambling away his career, Vann left the army that he loved and returned to Vietnam as a civilian in the pacification programme. He rose to become the first American civilian to wield a general's command in war. When he was killed in 1972, he was mourned at Arlington cemetery by leading political figures of the day. Sheehan recounts his astonishing story in this intimate and intense meditation on a conflict that scarred the conscience of a nation.

Former Irish mafia hitman Brock Sheehan lives quietly on a boat fifty miles from Cleveland. His “retirement” angered the mob boss and his former job caused the Sheehan family to disown him. But when his long-lost nephew, Linus Callahan, tracks him down and asks him for assistance, he agrees to help. A few days earlier, the nephew got into a push-and-shove bar argument with a multimillion-dollar basketball player just released from prison for running a high-level dog-fighting ring. Then the athlete is murdered, and Linus becomes the Cleveland police department’s “person of interest.” So while Brock Sheehan asks questions regarding the illegal dogfight community, the athlete’s crazed fans subject him and his live-in girlfriend to a beating, and rapes one of his co-workers at the local animal shelter. In his travels all over NE Ohio, Brock finds himself in Youngstown where he discovers the woman he’s loved all his life, Arizona Skye, who walked out on him years ago

does, specifically, on running. It provides an outline for a lifetime program of fitness and joy, showing how the body helps determine our mental and spiritual energies. Drawing from the words and actions of the great athletes and thinkers throughout history, Sheehan ties it all together with his own philosophy on the importance of fitness and sport, as well as his knowledge of training, injury prevention, and race competition. Above all, Sheehan describes what it means to experience the oneness of body and mind, of self and the universe. In this, Sheehan argues, we have the power to discover "the truth that makes men free."
