New Perspectives on Critical Marketing and Consumer Society Mar 04 2020 Digital communication has altered the flow of global information, evolved consumer values and changed consumption practices worldwide. *New Perspectives on Critical Marketing and Consumer Society* provides an illuminating, challenging and thought-provoking guide for all upper-level students of marketing, branding and consumer behaviour.

[Progress in Computer Gaming and Esports: Neurocognitive and Motor Perspectives](#) Jan 26 2022 [Contemporary Perspectives on Research in Creativity in Early Childhood Education](#) Sep 29 2019 Recently, a new understanding of creative thought and creative performance has surfaced. It has also attracted the attention of early childhood professional organizations and researchers. Professional organizations have included it in their publications and conferences. While current creativity researchers have initiated a far more sophisticated understanding of young children's creative thinking, ways to assess creativity, strategies to promote creativity, and research methodologies. The purpose of this volume is to present a wide range of different theories and areas in the study of creativity to help researchers and theorists work toward the development of different perspectives on creativity with young children. It focuses on critical analyses and reviews of the literature on topics related to creativity research, development, theories, and practices. It will serve as a reference for early childhood education researchers, scholars, academics, general educators, teacher educators, teachers, graduate students, and scientists to stimulate further "dialogue" on

ways to enhance creativity. The chapters are of high quality and provide scholarly analyses of research studies that capture the full range of approaches to the study of creativity --- behavioral, clinical, cognitive, cross-cultural, developmental, educational, genetic, organizational, psychoanalytic, psychometric, and social. Interdisciplinary research is also included, as is research within specific domains such as art and science, as well as on critical issues (e.g., aesthetics, genius, imagery, imagination, insight, intuition, metaphor, play, problem finding and solving). Thus, it offers critical analyses on reviews of research in a form that are useful to early childhood researchers, scholars, educators, and graduate students. It also places the current research in its historical context. The volume is also of interest to the general readers who are interested in the young children's creativity. The chapters are authored by established scholars in the field of young children's creativity.

Ein wenig Leben Apr 04 2020 "Ein wenig Leben" handelt von der lebenslangen Freundschaft zwischen vier Männern in New York, die sich am College kennengelernt haben. Jude St. Francis, brilliant und enigmatisch, ist die charismatische Figur im Zentrum der Gruppe - ein aufopfernd liebender und zugleich innerlich zerbrochener Mensch. Immer tiefer werden die Freunde in Judes dunkle, schmerzhafteste Welt hineingesogen, deren Ungeheuer nach und nach hervortreten. "Ein wenig Leben" ist ein rauschhaftes, mit kaum fasslicher Dringlichkeit erzähltes Epos über Trauma, menschliche Güte und Freundschaft als wahre Liebe. Es begibt sich an die dunkelsten Orte, an die Literatur sich wagen kann, und bricht dabei immer wieder zum hellen Licht durch.

International Perspectives of Crime Prevention 6 Apr 28 2022 The German Congress on Crime Prevention (GCOCP) is an annual event that takes place since 1995 in different German cities and targets all areas of crime prevention. Since its foundation the GCOCP has been open to an international audience with a growing number of non-German speaking participants joining. To give the international guests their own discussion forum, the Annual International Forum (AIF) within the GCOCP was established in 2007. For international guests this event offers lectures in English language as well as other activities within the GCOCP that are translated simultaneously. This book reflects the outcomes of the 7th AIF (22. and 23. April 2013 in Bielefeld). The articles show worldwide views on crime prevention and criminal policy as well as the current status, discussion, research and projects in crime prevention from different countries.

Embodied Jul 08 2020 We grow up thinking there are five senses, but we forget about the ten neglected senses of the body that both enable and limit our experience. Embodied explores the psychology of physical sensation in ten chapters: balance, movement, pressure (acting in gravity), breathing, fatigue, pain, itch, temperature, appetite, and expulsion (the senses of physical matter

leaving the body). For each sense, two people are interviewed who live with extreme experiences of the sense being investigated; their stories bring to life how far physical sensations matter to us and how much they define what is possible in our life. How physical sensation shapes behavior and how behavior is shaped by sensation are examined. A final chapter presents a theory of what is common across the ten senses: of how we deal with being urged to act, and what happens when extreme sensation is inescapable.

Godly Play - European Perspectives on Practice and Research Gott im Spiel - Europäische Perspektiven auf Praxis und Forschung Mar 28 2022 Wie kann Godly Play / GOTT IM SPIEL beforscht werden? Kann es so etwas geben wie 'belastbare Evidenz' im Kontext spiritueller Bildung? Welche Fragen sollten gestellt werden und welche Ergebnisse liegen bereits vor? In diesem Buch wird eine erste Forschungsbilanz in europäischer Perspektive gewagt. In einem breiten Themenspektrum veranschaulichen Projektberichte den Zusammenhang zwischen inhaltlichen Aspekten und möglichen Forschungsstrategien sowie dabei anzuwendenden ethischen Kriterien. Leserinnen und Leser erhalten methodologische Orientierung über qualitative wie quantitative Designs mit ihren jeweiligen Verfahren der Datenerhebung und -auswertung. Das Buch enthält auch Berichte aus 18 europäischen Ländern, in denen über die religionskulturellen Einbettungen informiert und die Diversität der Entwicklungen verdeutlicht wird. Die meisten Beiträge sind in englischer Sprache verfasst, einige in deutsch. Alle enthalten Zusammenfassungen in der jeweils anderen Sprache.

Physics and the Physical Perspective Nov 04 2022

Three Perspectives of Anthroposophy Sep 02 2022 What is truly real? Rudolf Steiner sheds light on everyday reality through spiritual knowledge, repeatedly urging us to bring anthroposophy into daily human existence. We might consciously experience the difference between consuming a potato as compared to cereals such as rye, for example - or we could grasp ordinary phenomena, such as sleepwalking, through an understanding of the threefold human being. Likewise, we might strive to comprehend how our head is the transformed organism of our previous life. Throughout, Steiner emphasizes that we can achieve spirituality on earth if only we make anthroposophy real. The twelve lectures here were delivered during the portentous year of 1923, in the context of increasing attacks from Steiner's opponents. His architectural masterpiece, the first Goetheanum, had already been destroyed by fire, but he was yet to refound the Anthroposophical Society at the Christmas Conference. In these uncertain times, Steiner speaks of the decline of European culture and the development of materialism as a philosophy, leaving anthroposophy with no exoteric foundation on which to build. But Rudolf Steiner strikes a positive note with an exciting and constructive way forward, providing us with the tools to see the world through three key perspectives of anthroposophy: the physical, the soul and the spiritual dimensions of reality. This previously-unpublished volume is translated by Elizabeth Marshall and includes an introduction, notes and index.

Oskar Kokoschka: Neue Einblicke und Perspektiven / New Insights and Perspectives Jan 14 2021

Oskar Kokoschka earned his place in the canon of modernist resistance as the wild child of Viennese modernism; a versatile master of image and word, the progenitor of a much-imitated doll fetish, and an anti-fascist defamed by the Nazis as "degenerate". In short, he was the epitome of the radical, political artist. Kokoschka revisited: This publication is the outcome of an international conference held at the Oskar Kokoschka Center at the University of Applied Arts Vienna. It brings together contemporary research from the fields of art, cultural studies, contemporary history, literature and theater studies, gender studies, and biography studies. Based on recently discovered sources, it sheds new light on the life and work of this fascinating artist, and critically interrogates many of his most powerful narratives.

Das Weltbild der Physik und ein Versuch seiner philosophischen Deutung Mar 16 2021

Dieser Buchtitel ist Teil des Digitalisierungsprojekts Springer Book Archives mit Publikationen, die seit den Anfängen des Verlags von 1842 erschienen sind. Der Verlag stellt mit diesem Archiv Quellen für die historische wie auch die disziplingeschichtliche Forschung zur Verfügung, die jeweils im historischen Kontext betrachtet werden müssen. Dieser Titel erschien in der Zeit vor 1945 und wird daher in seiner zeittypischen politisch-ideologischen Ausrichtung vom Verlag nicht beworben.

Global Perspectives on E-Commerce Taxation Law Dec 25 2021 This book considers the implications for the domestic and international tax systems of the growth of e-commerce. It covers a wide variety of activities, from discussion of the principles governing direct and indirect taxation, to explanation of the implementation and use of e-commerce on the part of businesses as well as the application of existing tax principles in this field.

Emerging Perspectives in Health Communication May 30 2022 This volume provides the theoretical, methodological, and praxis-driven issues in research on interpretive, critical, and cultural approaches to health communication. It includes an international collection of contributors, and highlights non-traditional (non-Western) perspectives on health communication.

Eurasian Business and Economics Perspectives Sep 09 2020 EBES conferences have been intellectual hub for academic discussion in economics, finance, and business fields and provide network opportunities for participants to make long lasting academic cooperation. This is the 21st issue of the Eurasian Studies in Business and Economics (EBES's official proceeding series) which includes selected papers from the 34rd EBES Conference - Athens. Due to the COVID-19, the conference presentation mode has been switched to "online/virtual presentation only". In the conference, 148 papers by 296 colleagues from 40 countries were presented. Both theoretical and empirical papers in this volume cover diverse areas of business, economics, and finance from many different regions. Therefore, it provides a great opportunity to colleagues, professionals, and students to catch up with the most recent studies in different fields and empirical findings on many countries and regions.

Latin American Perspectives on Science and Religion Dec 13 2020 Latin America plays an increasingly important role in the development of modern Christianity yet it has been underrepresented in current scholarship on religion and science. In this first book on the subject, contributors explore the different ways that religion and science relate to each other.

International Perspectives of Crime Prevention 7 Nov 11 2020 The German Congress on Crime Prevention (GCOCP) is an annual event that takes place since 1995 in different German cities and targets all areas of crime prevention. Since its foundation the GCOCP has been open to an international audience with a growing number of non-German speaking participants joining. To give the international guests their own discussion forum, the Annual International Forum (AIF) within the GCOCP was established in 2007. For international guests this event offers lectures in English language as well as other activities within the GCOCP that are translated simultaneously. This book reflects the outcomes of the 8th AIF (12. and 13. May 2014 in Karlsruhe). The articles show worldwide views on crime prevention and criminal policy as well as the current status, discussion, research and projects in crime prevention from different countries.

Internationale Perspectives of Crime Prevention 8 May 18 2021 The German Congress on Crime Prevention (GCOCP) is an annual event that takes place since 1995 in different German cities and targets all areas of crime prevention. Since its foundation the GCOCP has been open to an international audience with a growing number of non-German speaking participants joining. For international guests this event offers lectures in English language as well as other activities within the GCOCP that are translated simultaneously. This book reflects the outcomes of the 9th AIF (8th and 9th June 2015 in Frankfurt am Main). The articles show worldwide views on crime prevention and criminal policy as well as the current status, discussion, research and projects in crime prevention from different countries.

From Fear to Faith Sep 21 2021 CHRISTOPHER RORY PAGE Two bodies, two souls and an inspiring four way conversation between contrasting mortals as they journey through the African

bush and discover the way from Fear to faith. The author awakens one morning riddled with fear from a deafening noise outside his bungalow window. This is the beginning of an exploration into the self as he meets a primitive man who proves that there is more to someone than meets the eye. A non-verbal form of communication develops between as the two men dissect the concept of fear based on age-old theories and beliefs. The reader is introduced to the Ukuesaba Isitebhisa which translated from Zulu means Fear Ladder. This shows the progression of fear from the most superficial to the most concrete. The common denominator to minimise the fear on all levels is to instil faith in various forms. From Fear to faith is an inspiring story and teaches as much as it entertains. Light hearted moments dispersed with simple truths make it must read for anyone who aims to minimise the fears in their lives which prevent them from being who they were born to be.

Illness, Bodies and Contexts: Interdisciplinary Perspectives Jan 02 2020 This volume is a result of four days in July 2005, where historians, health economists, medical doctors and nurses, anthropologists, writers, sociologists and many more travelled to Oxford, England for the fourth annual 'Making Sense of Health, Illness and Disease' conference organised by Inter-Disciplinary.Net.

Perspectives on the Academic Discipline of Physical Education Aug 01 2022

ISCONTOUR 2015 - Tourism Research Perspectives Aug 21 2021 Proceedings of the ISCONTOUR The aim of the International Student Conference in Tourism Research (ISCONTOUR) is thus to offer students a unique platform to present their research and to establish a mutual knowledge transfer forum for attendees from academia, industry, government and other organisations. The annual conference, which is jointly organised by the IMC University of Applied Sciences Krems and the Salzburg University of Applied Sciences, will take place alternatively at the locations Salzburg and Krems. The conference research chairs are Prof. (FH) Dr. Roman Egger (Salzburg University of Applied Sciences) and Prof. (FH) Mag. Christian Maurer (University of Applied Sciences Krems). The target audience include international students (also PhDs), graduates, teachers and lecturers from the field of tourism and leisure management as well as companies and anyone interested in the conference topic areas. Issues to be covered at the conference include the following areas within a tourism context: Marketing & Management Tourism Product Development & Sustainability Information and Communication Technologies

Studyguide for Investigating Culture Jun 30 2022 Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Accompanys: 9780631222378 9780631222361 .

Social Psychological Perspectives on Stigma Oct 11 2020 The year 2013 marks the 50th anniversary of the publication Erving Goffman's landmark work, *Stigma: Notes on the Management of Spoiled Identity*. Through this edited volume, we commemorate the continuing contribution of Goffman's work on stigma to social psychology. As Goffman originally used the term, stigma implies some sort of negative deviance, or in his words, 'an undesired differentness from what we had anticipated.' Since Goffman's pioneering treatise, there have been thousands of articles published on different aspects of stigma. The accelerating volume of articles is testimony to the growing importance of stigma research, with almost three out of four of the stigma-related publications in the research literature appearing in the last 10 years. In this volume, a collection of up-and-coming and seasoned stigma researchers provide both theoretical insights and new empirical findings. The volume should be of interest to both established researchers and advanced students seeking to learn more about the depth and breadth of stigma research. This book was originally published as a special issue of *Basic and Applied Social Psychology*.

Global Perspectives on Sports and Christianity Jul 28 2019 While the relationship between sport and religion is deeply rooted in history, it continues to play a profound role in shaping modern-day societies. This edited collection provides an inter-disciplinary exploration of this relationship from a global perspective, making a major contribution to the religious, social scientific and theological study of sport. It discusses the dialectical interplay between sport and Christianity across diverse

cultures, extending beyond a Western perspective to include studies from Africa, South America and Asia, as well as Europe, the UK and the US. Containing contributions from leading experts within the field, it reflects on key topics including race, gender, spirituality, morality, interfaith sport clubs, and the significance of sport in public rituals of celebration and mourning. Its chapters also examine violent sports such as boxing and mixed martial arts, as well as reflecting on the cult of sporting celebrity and the theology of disability sport. Truly international in scope, *Global Perspectives on Sports and Christianity* is fascinating reading for all those interested in the study of sport, sociology and religion.

Epidemiology of Chronic Disease: Global Perspectives Jun 26 2019 *Epidemiology of Chronic Disease: Global Perspectives* is the most current and authoritative resource on the epidemiology, etiology, pathogenesis, risk factors and preventive factors of over 50 major chronic diseases and conditions. This comprehensive text provides readers with an excellent basis for examining current hypotheses regarding chronic disease epidemiology.

Developmental Perspectives on Embodiment and Consciousness Jul 20 2021 Until recently, the body has been largely ignored in theories and empirical research in psychology, particularly in developmental psychology. Recently however, several conceptions of the relation between body and mind have been developed. Common among these conceptions is the idea that the body plays an important role in our emotional, social, and cognitive lives. This latest volume in the Jean Piaget Society Symposia Series illustrates different ways in which the concept of embodiment can be used in developmental psychology and related disciplines. It explores the role of the body in the development of meaning, consciousness, and psychological functioning. The overall goal is to demonstrate how the concept of embodiment can deepen our understanding of developmental psychology by suggesting new possibilities of integrating biological, psychological, and socio-cultural approaches. *Developmental Perspective on Embodiment and Consciousness* explores embodiment in two ways. First, embodiment is examined as a condition of and influencing the particular shape of psychological experience. This sense of embodiment reflects the effort to put the mind back into the body. Second, embodiment is examined as a reflective experience in the sense that the mind forms particular images about the body. This sense of embodiment reflects the effort to put the body into the mind. The book opens with a discussion of embodiment from a meta-theoretical perspective. Then the role of embodiment in grounding conceptual meaning is examined. This is followed by discussions of the role of embodiment in strengthening our understanding of emotions, cognitive development, religious experiences, and social development. Then the role of the body in spatial cognition and the role of language in the development of complex forms of consciousness are explored. The final chapters examine the impact of culture on the conceptualization of the embodied self. The book concludes with an overview of the historical context of the mind-body dualism and a discussion of how the idea of embodiment transcends this dualism. Intended for researchers and advanced students in developmental, cognitive, and social psychology, neuroscience, philosophy, anthropology, biology, and sociology, this new book also serves as a reference for advanced courses on cognition and development.

Environmental Health Perspectives Oct 30 2019

Global Perspectives on Information Security Regulations: Compliance, Controls, and Assurance Aug 28 2019 Recent decades have seen a proliferation of cybersecurity guidance in the form of government regulations and standards with which organizations must comply. As society becomes more heavily dependent on cyberspace, increasing levels of security measures will need to be established and maintained to protect the confidentiality, integrity, and availability of information. *Global Perspectives on Information Security Regulations: Compliance, Controls, and Assurance* summarizes current cybersecurity guidance and provides a compendium of innovative and state-of-the-art compliance and assurance practices and tools. It provides a synopsis of current cybersecurity guidance that organizations should consider so that management and their auditors can regularly evaluate their extent of compliance. Covering topics such as cybersecurity laws, deepfakes, and information protection, this premier reference source is an excellent resource for cybersecurity

consultants and professionals, IT specialists, business leaders and managers, government officials, faculty and administration of both K-12 and higher education, libraries, students and educators of higher education, researchers, and academicians.

New Perspectives on Human Development Apr 16 2021 Developmental theorists have struggled with defining the relations among biology, psychology, and sociocultural context, often reducing psychological functions of a person to either biological functioning or the role of sociocultural context - nature or nurture - and considering each area of human development separately. *New Perspectives on Human Development* addresses fundamental questions of development with a unified approach. It encompasses theory and research on cognitive, social and moral, and language and communicative development, in various stages of life, and explores interdisciplinary perspectives. *New Perspectives on Human Development* revisits old questions and applies original empirical findings, offering new directions for future research in the field.
