[Cromwell's Convicts](#) Feb 10 2021 Cromwell's Convicts not only describes the Battle of Dunbar but concentrates on the grim fate of the soldiers taken prisoner after the battle. On 3 September 1650 Oliver Cromwell won a decisive victory over the Scottish Covenanters at the Battle of Dunbar – a victory that is often regarded as his finest hour – but the aftermath, the forced march of 5,000 prisoners from the battlefield to Durham, was one of the cruellest episodes in his career. The march took them seven days, without food and with little water, no medical care, the property of a ruthless regime determined to eradicate any possibility of further threat. Those who survived long enough to reach Durham found no refuge, only pestilence and despair. Exhausted, starving and dreadfully weakened, perhaps as many as 1,700 died from typhus and dysentery. Those who survived were condemned to hard labour and enforced exile in conditions of virtual slavery in a harsh new world across the Atlantic. Cromwell's Convicts describes their ordeal in detail and, by using archaeological evidence, brings the story right up to date. John Sadler and Rosie Serdiville describe the battle at Dunbar, but their main focus is on the lethal week-long march of the captives that followed. They make extensive use of archive material, retrace the route taken by the prisoners and describe the recent archaeological excavations in Durham which have identified some of the victims and given us a graphic reminder of their fate.

The War of 1812 U.S. War Department Correspondence, 1812–1815 Jun 24 2019 The War of 1812 saw the United States wracked by political dissent and saddled with a problematic military policy. The new nation notably failed in its attempted occupation of Canada in a bid to leverage better treatment from Great Britain but in two and a half years of fighting, there were American victories and defeats, none of which decisively altered events or advanced the national agenda. In the end, the grievances listed in President Madison's war message to Congress—British harassment of American shipping, the impressment of American citizens and the instigation of hostilities by Indian tribes—were all mitigated by the time the Treaty of Ghent was signed in 1814 (mainly attributable to the fall of Napoleon). This collection of War Department correspondence gives a complete account through more than 11,000 official and unofficial letters, annotated and indexed here for the first time.
