Slow Fashion Jan 25 2022 Slow Fashion offers creatives, entrepreneurs, and ethical consumers alike a glimpse into the innovative world of the eco-concept store movement, sustainable design, and business that puts people, livelihoods, and sustainability central to everything they do. Safia Minney argues that the future of brick and mortar retail is in the best in fair trade, sustainability, and organic products, together with vintage and second hand goods and local produce. Restorative economics, the well-being of our planet, and our bodies and minds can be inspired by this growing sector, one that is shaping big business. This book curates pioneering people and projects that will inspire you to be part of the change. International names include Livia Firth, Zandra Rhodes, and

Lily Cole. American change-makers include Andrew Morgan, filmmaker (The True Cost, a ground-breaking documentary that asks us each to consider who pays the price for our clothing), and Dana Geffner (Fair World Project). With full color photography and elegant design, Slow Fashion profiles the people bringing the alternatives to the mainstream: designers, labels, and eco-concept stores across the world; fair trade producers; campaigns that are re-designing the fashion economy; and the fibers and fabrics which are making a difference. Safia Minney is founder and CEO of fair trade and sustainable fashion label People Tree. She has turned a lifelong interest in environment, trade, and social justice issues into an award-winning social business. She is widely regarded as a leader in

the Fair Trade movement and has been awarded Outstanding Social Entrepreneur by the World Economic Forum. Slave to Fashion Aug 08 2020 : "Slave to Fashion offers hope of a fairer, more ethical world and gives the reader plenty of tools to navigate a challenging fashion system."—Livia Firth There are over 35 million people trapped in modern slavery today—the largest number of slaves in modern history. This is fueled by the global demand for cheap labor—which is what makes the fast fashion industry work. Slave to Fashion is a highly accessible book which uses brilliant design, personal stories, and easy-to-grasp infographics to raise awareness among common brand consumers. Fair trade and sustainable fashion expert Safia Minney draws on her extensive knowledge and

personal experience to call attention to the human hardship that goes hand-in-hand with producing our clothes, and highlights what governments, business leaders, and consumers can do to call time on this unnecessary suffering. The product of a successful crowdfunding campaign, *Slave to Fashion* celebrates those fighting for justice and the many initiatives that are taking place. It contains a practical toolkit that all consumers can use to demand change from the companies that produce our clothes. Safia Minney is a pioneer in ethical business. She developed the fashion industry's first fair trade supply chains and has helped to create social and organic standards to improve the lives of thousands of economically marginalized people in the developing world. Minney now brings her expertise and experience to help businesses embrace sustainability and transparency in their operations and branding. She is the author of several acclaimed books, including *Naked Fashion* and *Slow Fashion*.

### **In Fashion: Culture, Commerce, Craft, and Identity**

Oct 29 2019 For the international cast of contributors to this volume being "in fashion" is about self-presentation; defining how fashion is presented in the visual, written, and performing arts; and about design, craft manufacturing, packaging, marketing, and archives.

*Dangerous Art* Jan 13 2021 *Dangerous Art* takes up the problem of judging works of art

using moral standards. When we think that a work is racist, or morally dangerous, what do we mean? James Harold approaches the topic from two angles. First, he takes up the moral question on its own. What could it mean to say that a work of art (rather than, say, a human being) is immoral? He then steps back and examines how moral evaluation fits into the larger task of evaluating artworks. If an artwork is immoral, what does that tell us about how to value the artwork? By tackling the issue from both sides, Harold demonstrates how many of the reasons previously given for thinking that works of art are immoral do not stand up to careful scrutiny. While many philosophers of art have simply assumed that artworks can be evaluated morally and proceeded as though such assessments were unproblematic, Harold highlights the complexities and difficulties inherent in such evaluations. He argues that even when works of art are rightly condemned from a moral point of view, the relationship between that moral flaw and their value as artworks is complex. He instead defends a moderate, skeptic version of autonomism between morality and aesthetics. Employing figures and ideas from ancient Greece, classical China, and the Harlem Renaissance, as well as William Styron's novel *The Confessions of Nat Turner*, he argues that we cannot judge artworks in the same way that we judge people on moral grounds. In this sense, we can judge an

artwork to be both wicked and beautiful; nothing requires us to judge an artwork more or less valuable aesthetically just because we judge it to be morally bad or good. Taking up complex issues at the intersection of art and ethics, *Dangerous Art* will appeal to philosophers and students interested in art, aesthetics, moral philosophy, and philosophy of mind.

*Forbidden Aesthetics, Ethical Justice, and Terror in Modern Western Culture* May 29 2022

Most would find it improper, even immoral, to admit to an aesthetic experience of the beautiful in the midst of terror and disaster. In this book, Emmanouil Aretoulakis explores the fascination with terror and human tragedy, which he terms forbidden aesthetics, through various lenses including Kant's idea of disinterested judgement of the beautiful and Burke's concept of delight before real catastrophe.

*Meeting the Ethical Challenges of Leadership* Jul 31 2022

Ethics is at the heart of leadership. All leaders assume ethical burdens and must make every effort to make informed ethical decisions and foster ethical behavior among followers. The Sixth Edition of *Meeting the Ethical Challenges of Leadership: Casting Light or Shadow* explores the ethical demands of leadership and the dark side of leadership. Author Craig E. Johnson takes a multidisciplinary approach to leadership ethics, drawing from many fields of research to help readers make moral decisions, lead in a moral manner, and

create an ethical culture. Packed with real-world case studies, examples, self-assessments, and applications, this fully-updated new edition is designed to increase students' ethical competence and leadership abilities. *Slow Culture and the American Dream* Apr 03 2020 *Slow Culture and the American Dream: A Slow and Curvy Philosophy for the Twenty-First Century* is divided into an introduction, six chapters, and a conclusion. In making its case for the philosophy of slow, the book first chronicles the origins of the Slow Food movement in Italy in the 1980s followed by various outgrowths: e.g., Cittaslow (slow cities), slow fashion, slow travel, and slow parenting. The book explains why the slow movement is in many ways at odds with the prevalent American Dream so committed to growth, speed, and acceleration.

[Iris Murdoch, Philosopher Meets Novelist](#) Mar 27 2022 *Iris Murdoch, Philosopher Meets Novelist* aims to gather some of the world's present experts on Iris Murdoch, in an effort to promote dialogue between philosophy and literature. This is due not only to the nature of Iris Murdoch's work itself, but also to our belief that within Humanistic Studies there is a constant need for breaking down disciplinarian barriers and reaching a deeper, fuller awareness of human thinking. Thus, the book brings together scholars from a variety of fields and places—Brazil, England, Iran, Ireland, Italy, Portugal, Spain, Turkey, Taiwan, and the

United States—and testifies to the interest that the work of Murdoch continues to inspire. The book is divided into two major sections: Part A, *Reading Philosophies in Literature*, includes articles focusing on Iris Murdoch's philosophical concerns and their general influence in her work; Part B, *Reading Literature through Philosophy*, is intended as a sort of application ground, a series of case-studies wherein authors depart from novels to retrieve the underlying philosophical thinking.

[Drawing the Line](#) Jul 19 2021 *Can we still watch Woody Allen's movies? Can we still laugh at Bill Cosby's jokes? Woody Allen, Kevin Spacey, Dave Chappelle, Louis C. K., J.K. Rowling, Michael Jackson, Roseanne Barr.* Recent years have proven rife with revelations about the misdeeds, objectional views, and, in some instances, crimes of popular artists. Spurred in part by the #metoo movement, and given more access than ever thanks to social media and the internet in general, the public has turned an alert and critical eye upon the once-hidden lives of previously cherished entertainers. But what should we members of the public do, think, and feel in response to these artists' actions or statements? It's a predicament that many of us face: whether it's possible to disentangle the deeply unsettled feelings we have toward an artist from how we respond to the art they produced. As consumers of art, and especially as fans, we have a host of tricky moral questions to navigate: do the moral lives of artists affect the aesthetic quality of their work? Is it morally permissible for us to engage with or enjoy that work? Should immoral artists and their work be canceled? Most of all, can we separate an artist from their art? In *Drawing the Line*, Erich Hatala Matthes employs the tools of philosophy to offer insight and

clarity to the ethical questions that dog us. He argues that it doesn't matter whether we can separate the art from the artist, because we shouldn't. While some dismiss the lives of artists as if they are irrelevant to the artist's work, and others instrumentalize artwork, treating it as nothing more than a political tool, Matthes argues both that the lives of artists can play an important role in shaping our moral and aesthetic relationship to the artworks that we love and that these same artworks offer us powerful resources for grappling with the immorality of their creators. Rather than shunning art made by those who have been canceled, shamed, called out, or even arrested, we should engage with it all the more thoughtfully and learn from the complexity it forces us to confront. Recognizing the moral and aesthetic relationships between art and artist is crucial to determining when and where we should draw the line when good artists do bad things. [The Ethical Detective](#) Mar 03 2020 This book works within the neo-Aristotelian ethical framework to make the case that moral philosophers ought to see detective fiction as a source of ethical insight and as a tool to spark the moral imagination. It also critiques contemporary moral philosophy and proposes what autonomy might look like if understood in neo-Aristotelian terms. *Dance and Ethics* Jun 05 2020 Dance and Ethics: Moving Towards a More Humane Culture is an introductory study of ethical issues as

applied to the history and field of Western theatrical dance. It is the first sustained work of its kind, inspired by the belief that there are serious issues to be illuminated by examining dance in relation to ethics and to the changing values in the dance world itself, especially as faced by young dancers entering the profession. Since the 1960s and gathering momentum with the #metoo movement, scholars and practitioners, especially from the fields of dance education, somatics and the realms of postmodern dance and ballet, have increasingly believed that attitudes and practices involving psychological, physical and sexual mistreatment of students and dancers must be challenged. Dance and Ethics examines key ethical issues related to the dance field, primarily within the United States, and how those directly impact different aspects of the lives of dance artists over the span of their careers. The issues discussed include the basic ethical choices facing a dance artist in terms of whether to care about ethics or separate art from morality; ethical issues involved in student-teacher and dancer-choreographer relationships; how ethical concerns relate to the creation and reception of choreographic work; ethical aspects of the critical assessment of dance and dancers; and ethical issues related to presenting systems and institutional infrastructures within the dance field. While there is a clear bias towards greater humanism within the dance

field, Naomi Jackson is sensitive to the variety of moral stances available in any given situation. Readers are invited to consider that ethical options exist other than those that are usually promoted, that while sometimes there are no clear right and wrong answers, there are better and worse positions to be explored and defended and that it is important for the dance field and broader culture to consciously address ethical issues in relation to dance in a sustained, thoughtful and creative manner. The book focuses on theatrical dance forms of ballet, modern/postmodern dance and theatrical jazz, but also extends to commercial dance, dance for the camera/internet and social/vernacular/folk dance when relevant to the main argument. Dance and Ethics will appeal primarily to educators and students as well as young professional dancers. It is designed for undergraduate and graduate students in dance studies, American studies, performance studies and cultural studies. It will be useful for undergraduate and graduate dance courses focused on pedagogy, choreography, criticism, community engagement, politics and aesthetics.

**Circular Fashion** Jan 31 2020 Creating sustainable fashion has never been more important. Circular Fashion provides an accessible, practical, and holistic approach to this key topic for anyone studying fashion. This introductory text to sustainability in fashion

includes best practice case studies and profiles of key companies such as Patagonia, Veja, Christopher Raeburn, and Stella McCartney. It begins with an overview of the fashion business, tackling the issues of the linear production model of make, use, dispose, before introducing the idea of the circular supply chain. *Circular Fashion* is the must-have book for fashion students, creatives and anyone passionate about sustainability and fashion.

### [The Many Moral Rationalisms](#)

Apr 27 2022 Moral rationalism takes human reason and human rationality to be the key elements in an explanation of the nature of morality, moral judgment, and moral knowledge. This volume explores the resources of this rich philosophical tradition. Thirteen original essays, framed by the editors' introduction, critically examine the four core theses of moral rationalism: (i) the psychological thesis that reason is the source of moral judgment, (ii) the metaphysical thesis that moral requirements are constituted by the deliverances of practical reason, (iii) the epistemological thesis that moral requirements are knowable a priori, and (iv) the normative thesis that moral requirements entail valid reasons for action. The five essays in Part I ('Normativity') offer contemporary defences or reconstructions of Kant's attempt to ground the normative thesis, that moral requirements entail valid reasons for action, in the nature of practical reason and practical rationality. The four

essays in Part II ('Epistemology & Meaning') consider the viability of claims to a priori moral knowledge. The authors of all four essays are sympathetic to a realist moral metaphysics, and thus forgo the straightforward constructivist road to apriority. The four essays in Part III ('Psychology') each grapple with the implications for rationalism of the role of emotions and unconscious processes in moral judgement and action. Together the essays demonstrate that moral rationalism identifies not a single philosophical position but rather a family of philosophical positions, which resemble traditional rationalism, as exemplified by Kant, to varying degrees. *Mending Matters* Nov 30 2019 This guide explores visible mending techniques in both hands-on projects and thoughtful insight about how mending relates to mindful well-being. *Mending Matters* explores sewing on two levels: First, it includes more than twenty projects that showcase visible mending—styles that are edgy, modern, and bold, yet draw on traditional stitching. It does all this with just four simple mending techniques: exterior patches, interior patches, slow stitches, darning, and weaving. In addition, the book addresses the way mending leads to a more mindful relationship to fashion and to overall well-being. In essays that accompany each how-to chapter, Katrina Rodabaugh explores mending as a metaphor for appreciating our own naturally flawed

elves. She also examines the ways in which mending teaches us new skills, self-reliance, and confidence, all gained from making things with our own hands.

### **Constructing Knowledge Art**

Oct 22 2021 This book is about how people (we refer to them as practitioners) can help guide participants in creating representations of issues or ideas, such as collaborative diagrams, especially in the context of Participatory Design (PD). At its best, such representations can reach a very high level of expressiveness and usefulness, an ideal we refer to as Knowledge Art. Achieving that level requires effective engagement, often aided by facilitators or other practitioners. Most PD research focuses on tools and methods, or on participant experience. The next source of advantage is to better illuminate the role of practitioners—the people working with participants, tools, and methods in service of a project's larger goals. Just like participants, practitioners experience challenges, interactions, and setbacks, and come up with creative ways to address them while maintaining their stance of service to participants and stakeholders. Our research interest is in understanding what moves and choices practitioners make that either help or hinder participants' engagement with representations. We present a theoretical framework that looks at these choices from the experiential perspectives of

narrative, aesthetics, ethics, sensemaking and improvisation and apply it to five diverse case studies of actual practice.

as other new directions the field is taking towards everyday aesthetics Featuring a list of research resources and an extensive chronology of works in aesthetics and the philosophy of art dating from the fifth century BC to the 21st century, *The Bloomsbury Companion to Aesthetics* provides an engaging introduction to contemporary aesthetics.

**Imperfectionist Aesthetics in Art and Everyday Life** Dec 24 2021 This book presents interdisciplinary research on the aesthetics of perfection and imperfection. Broadening this growing field, it connects the aesthetics of imperfection with issues in areas including philosophy, music, literature, urban environment, architecture, art theory, and cultural studies. The contributors to this volume argue that imperfection has value in being open and inclusive. The aesthetics of imperfection is typified by organic, unpolished production and the avoidance of perfect finish, instead representing living and natural change, and opposing the consumerist concern with the flawless and pristine. The chapters are divided into seven thematic sections. After the first section, on imperfection across the arts and culture, the next three parts are on imperfection in the arts of music, visual and theatrical arts, and literature. The second half of this book then moves to categories in everyday life and branches this further into body, self, and the person, and urban environments. Together, the

chapters promote a positive ethos of imperfection that furthers individual and social engagement and supports creativity over mere passivity. *Imperfectionist Aesthetics in Art and Everyday Life* will appeal to a broad range of scholars and advanced students working in philosophical aesthetics, literature, music, urban environment, architecture, art theory, and cultural studies. **Meeting the Moment** Sep 08 2020 "Composes the recollections of socially engaged theater makers and performers to discuss the challenges and adaptations of the field. *Meeting the Moment* explores experiences of a diverse range of progressive theater and performance makers in the U.S., in their own words, since 1965. These performers, often unknown beyond their immediate audience, articulate diverse influences. Curated stories from over 75 interviews and informal exchanges offers insight into the field and point out limitations due to discrimination and unequal opportunity for performance artists over the past 55 years. They also reflect on how artists are educated and supported, what content is deemed valuable and how it is brought to bear, as well as which audiences are welcome and whether cross-community exchange is encouraged. **Profundity** Feb 11 2021 The crisis or "death" of philosophy currently identified both within and outside professional circles is commonly attributed to the failure to find universals in metaphysics, epistemology, and, most obviously, in valuational judgment.

Profundity concentrates on an assumption uniformly upheld in the theory of value, that all human values are contextually dependent. Harrell contends, to the contrary, that there exists one major value that is universal to humans, regardless of context. That value is profundity, or depth.

Considering how "profundity" is used in our language leads Harrell to identify two fundamental sensory patterns that are common to all human life at its origin—an auditory pattern that is first experienced before birth and a visual one that is experienced immediately after birth. From analysis of these patterns as they recur in music and the visual arts, Harrell moves on to discuss their related manifestations in religious doctrine, ceremony, and experience and also in works of literature. Overall her theory entails a radical revamping of the concept of creativity, since no artist can create profundity as a universal value, and provides the first full-scale treatment of profundity in the history of Western philosophy.

students at the college level, this informal approach to music theory relates the technical aspects of music with the expressive character of the art. The approach is holistic in the sense that it focuses on the interrelationships between the piece as heard by a socially conditioned listener and the notated, performed score: it aims to bridge the gap between the technical and expressive aspects of music. The composers addressed are: Bach, Mozart, Beethoven, Chopin, Schumann, Brahms, Wagner, Debussy, and Schoenberg. There are separate chapters on the problems of meaning in music and on the interdependence of aesthetic and ethical value-judgments. This novel and exciting approach to music theory will be a welcome addition to the musical analysis literature.

**Ways of Meeting and the Theology of Religions** May 05 2020 Exploring the different points of view and 'tones of voice' adopted in theology for the meeting of religions, this book presents a contemporary philosophical and theological engagement with key issues of how different faiths might meet, of comparative philosophy of religion, of the use of aesthetics, of inter-religious ethics and issues relating to the self. Providing a critical evaluation of contemporary liberal, post-liberal and conservative voices, and an engagement with movements such as Radical Orthodoxy and Scriptural Reasoning to mention a few, this book highlights the use of

the creative imagination and explores new ideas for the meeting of religions.

[The Meeting of Aesthetics and Ethics in the Academy](#) Sep 20 2021 The Meeting of Aesthetics and Ethics in the Academy provides a deep understanding of the nuances of ethics in the creative environment and contributes to the critical exploration of the nature of research ethics in higher education. Written by world-renown academics with a wealth of experience in this field, this volume explores ethical challenges and responses across a range of creative practices and disciplines including design, documentary film making, journalism, socially engaged arts and the visual arts. It addresses the complex negotiations that creative practice researchers in higher education undertake to ensure that the ethical compliance required does not undermine the research integrity and artistic aspirations. By presenting carefully considered challenges to accepted models of research, this book illustrates critical analysis through a variety of case studies and anecdotal examples that provide an insight into improved ethics practices and policies in higher education. This book is perfect for academics, ethics administrators, higher degree research candidates and supervisors looking to engage further in creative practice research and wanting to explore and understand its ethical oversight.

Indonesian fashion has undergone a period of rapid growth over the last three decades. This book explores how through years of social, political, and cultural upheaval, the country's fashion has moved away from "colonial fashion" and "national dress" to claim its own distinct identity as contemporary fashion in a global world. With

specific reference to women's wear, *Contemporary Indonesian Fashion* explores the diversity and complexity of the country's sartorial offerings, which weave together local textile traditions like batik and ikat-making with contemporary narratives. The book questions concepts of "tradition" and "modernity" in the developing world, taking stock of the elite consumption of luxury brands and the large-scale manufacturing of fast fashion, and introduces us to the rise of new trends such as busana muslim (or "modest wear"), creating a portrait of a vibrant and growing national and, increasingly, international, industry. Exploring clothing in shopping malls, on the catwalk, in magazines, and online, the book examines how Indonesian fashion is made, presented, and consumed, combining research in Indonesia with analysis and personal reflection.

*Contemporary Indonesian Fashion* ultimately questions the deeply entrenched eurocentrism of "global fashion", simultaneously interrogating current homogenizing beauty and body image discourses posited as universal, by pointing to absences, silences, and erasures as reflected by contemporary Indonesian fashion- hence the "looking glass" of the title. Aptly illustrated, the book offers a new perspective on a rapidly developing new fashion capital, Jakarta.

**Handbook of Research on Improving Engineering Education With the European Project Semester**

Jan 01 2020 Engineering education aims to prepare engineering undergraduates for their future professional journey where they will be called on to solve challenges affecting individuals, companies, and society. The *European Project Semester (EPS)* exposes students to project- and challenge-based learning, paying special attention to international multidisciplinary teamwork, sustainable design, innovative thinking, and project management in order to develop a set of desired professional skills. The *Handbook of Research on Improving Engineering Education With the European Project Semester* shares the best practices in engineering education through close examination of the EPS. It describes the adopted learning framework, analyzes how it contributes to the development of skills, reports on the types of challenges proposed to teams, and delivers a set of team-project cases from the network of providers. Covering topics such as engineering ethics, project management, and sustainable behavior, this book is essential to students in engineering, engineers, engineering educators, educational researchers, academic administration and faculty, and academicians.

**Creative Research Methods in Education** Jun 17 2021 Co-authored by an international team of experts across disciplines, this important book is one of the first to demonstrate the enormous benefit creative methods offer for education research. You do not have to be an artist to be creative, and the book encourages students, researchers and practitioners to discover and consider new ways to explore the field of education. It illustrates how using creative methods, such as poetic inquiry, comics, theatre and animation, can support learning and illuminate participation and engagement. Bridging academia and practice, the book offers: • practical advice and tips on how to use creative methods in education research; • numerous case studies from around the world providing real-life examples of creative research methods in education practice; • reflective discussion questions to support learning. *The Art of Experience* Nov 10 2020 The Art of Experience provides an interdisciplinary analysis of selected plays from

Ireland's premier female playwright, Marina Carr. Dagmara Gizło explores the transformative impact of a theatrical experience in which interdisciplinary boundaries must be crossed. This book demonstrates that theatre is therapeutic and therapy is theatrical. The role of emotions, cognitions, and empathy in the theatrical experience is investigated throughout. Dagmara Gizło utilises the methodological tools stemming from modern empirically grounded psychology (such as cognitive-behavioural therapy or CBT) to the study of theatre's transformative potential. This book will be of great interest to students and scholars of theatre, performance, and literature, and will be a fascinating read for those at the intersection of cognitive studies and the humanities. *Mayhem and Murder* Jul 27 2019 Both detective and reader attempt to solve the crimes in detective novels, relying on the same motifs but employing different narrative interpretations to do so. A unique and lucid examination of a complex genre.

**The Routledge Companion to Environmental Ethics** Sep 01 2022 Written for a wide range of readers in environmental science, philosophy, and policy-oriented programs The Routledge Companion to Environmental Ethics is a landmark, comprehensive reference work in this interdisciplinary field. Not merely a review of theoretical approaches to the ethics of the environment, the

Companion focuses on specific environmental problems and other concrete issues. Its 65 chapters, all appearing in print here for the first time, have been organized into the following eleven parts: I. Animals II. Land III. Water IV. Climate V. Energy and Extraction VI. Cities VII. Agriculture VIII. Environmental Transformation IX. Policy Frameworks and Response Measures X. Regulatory Tools XI. Advocacy and Activism The volume not only explains the nuances of important core philosophical positions, but also cuts new pathways for the integration of important ethical and policy issues into environmental philosophy. It will be of immense help to undergraduate students and other readers coming up to the field for the first time, but also serve as a valuable resource for more advanced students as well as researchers who need a trusted resource that also offers fresh, policy-centered approaches.

The Platonism of Walter Pater  
Jul 07 2020 As a teacher of Plato in Oxford's Literae Humaniores, Walter Pater was informed by philosophy from his earliest essays to his last book. The Platonism of Walter Pater examines Pater's deep engagement with Platonism throughout his career. It overturns his reputation as a superficial aesthete known mainly for his 'Conclusion' to The Renaissance to reposition his contribution to literature and the history of ideas. In his criticism and fiction, including his studies on myth, Pater was influenced by several of Plato's

dialogues. Phaedrus, Symposium, Theaetetus, Cratylus, and The Republic informed his philosophy of beauty, history, myth, knowledge, ethics, language, and style. As a philosopher, critic, and artist, Plato embodied what it meant to be an author to Pater, who imitated his creative practice from vision to expression. For Pater Platonism was also a point of contact with his contemporaries, including Matthew Arnold and Oscar Wilde, offering a means to take new measure of their literary relationships. Using the interdisciplinary critical tools of Pater's own educational milieu which combined literature, philosophy, and classics, The Platonism of Walter Pater repositions the importance Pater's contribution to literature and the history of ideas.

**The Oxford Handbook of Feminist Philosophy** Jun 25 2019 This exciting new Handbook offers a comprehensive overview of the contemporary state of the field in feminist philosophy. The editors' introduction and forty-five essays cover feminist critical engagements with philosophy and adjacent scholarly fields, as well as feminist approaches to current debates and crises across the world. Authors cover topics ranging from the ways in which feminist philosophy attends to other systems of oppression, and the gendered, racialized, and classed assumptions embedded in philosophical concepts, to feminist perspectives on prominent

subfields of philosophy. The first section contains chapters that explore feminist philosophical engagement with mainstream and marginalized histories and traditions, while the second section parses feminist philosophy's contributions to numerous philosophical subfields, for example metaphysics and bioethics. A third section explores what feminist philosophy can illuminate about crucial moral and political issues of identity, gender, the body, autonomy, prisons, among numerous others. The Handbook concludes with the field's engagement with other theories and movements, including trans studies, queer theory, critical race, theory, postcolonial theory, and decolonial theory. The volume provides a rigorous but accessible resource for students and scholars who are interested in feminist philosophy, and how feminist philosophers situate their work in relation to the philosophical mainstream and other disciplines. Above all it aims to showcase the rich diversity of subject matter, approach, and method among feminist philosophers.

*Talk to Her* Dec 12 2020 Pedro Almodóvar is one of the most renowned film directors of recent years. *Talk to Her* is one of the most discussed and controversial of all his films. Dealing principally with the issue of rape, it also offers profound insights into the nature of love and friendship whilst raising important philosophical and moral questions in unsettling and often paradoxical ways. This is the first book to explore and address the philosophical aspects of Almodóvar's film. Opening with a helpful introduction by Noël Carroll that places the film in context, specially commissioned chapters examine the following topics: The relationship

between art and morality and the problem of 'immoralism' Moral injury and its role in the way we form moral judgments, including the ethics of love and friendship The nature of dialogue, sexual objectification and what 'listening to' means in the context of gender Almodóvar's use of allusion and the unmasking of appearances to explore hidden themes in human nature. Including a biography of Almodóvar, *Talk to Her* is essential reading for students interested in philosophy and film as well as ethics and gender. It is also provides an accessible and informative insight into philosophy for those in related disciplines such as film studies, literature and religion.
