The Erotic Cloth Aug 15 2021 Through their metaphorical and material qualities, textiles can be seductive, exciting, intimate and, at times, shocking and disquieting. This book is the first critical examination of the erotically charged relationship between the surface of the skin and the touch of cloth, exploring the ways in which textiles can seduce, conceal and reveal through their interactions with the body. From the beautiful cloth which is quietly suggestive, to bold expressions of deviant sexuality, cloth is a message carrier for both desiring and being desired. The drape, fold, touch and feel, the sound and look of cloth in motion, allow for the exploration of identity as a sensual, gendered or political experience. The book features contributions on the sensory rustle and drape of silk taffeta and the secret pleasures of embroidery, on fetishistic punk street-style and homoerotic intimacy in men's shirts on screen, and a new perspective on the role of cloth and skin in the classic film Blade Runner. In doing so, it interrogates experiences of cloth within social, historical, psychological and cultural contexts. Divided into four sections on representation, design, otherness and performance, The Erotic Cloth showcases a variety of debates that are at the heart of contemporary textile research, drawing on the fields of art, design, film, performance, culture and politics. Playful, provocative and beautifully illustrated with over 50 color images, it will appeal to students and scholars of textiles, fashion, gender, art and anthropology.

Nothing in Itself Sep 23 2019 What Herbert Blau suggests, in Nothing in Itself, is that fashion itself, today, has been anticipating and redefining, in the dazzle on the runway, or even in ready-to-wear, the terms in which it is critiqued, while sometimes giving the impression that it is inseparable from critique; in short, there is little to be said of fashion that is not somehow visible in fashion, though even in the mainstream we may call it antifashion. Which is all the more reason to look at the clothes. The book does so copiously, with a fastidious eye to style, as if nothing could be said of a garment, no appropriate fabric of thought, without the felt sensation.

Gloves Jun 01 2020 No outfit is complete without accessories. Trinity of hats, scarves and gloves is a common ensemble that is used as modern fashion accessory by both men and women. It was a necessity to protect hands from gusty winds and keep them warm during cold-weather winters. The historic evolution and democratization development of gloves had an exotic trip with detours aplenty throughout the centuries. Gloves in fashion were an exclusive enterprise, a pursuit of the wealthy. Therefore, the use of materials, the length, and fabrication evolved from made at home into real industry. Eventually, an array of hand wear of different styles and colors became available for masses. In the intervening time, Europe countries were the ones that planted the seeds that would define fashion culture, chic and elegance for decades to come. Today, whatever its seasonal vagaries, gloves and mittens as fashion accessories have been a reflection of society as an industry, often stirring provocative debate. Is it art or craft? Who would wear elbow-long opera gloves? Is couture dead? Is department store obsolete? The answers are in the gloves themselves, in their history and present.

Naked Girls Club Jun 13 2021

Latex Fashion Photography Oct 29 2022 Brilliant Times for Skintight Outfits Whether vinyl, PVC, or patent, rubber, spandex or latex, shiny skintight clothing has mostly been seen as slutty, whorish and vulgar. But since international stars have been sporting extravagant latex attire, skintight and shiny is now worn on the street, at the club and even in audience with royalty. Musicians are on the cutting edge of this trend. Recent out of the closet latex fans include Katy Perry and Beyonce: one dancing on stage in a candy colored pleather mini dress, the other on TV in a revealing American flag inspired latex outfit. In her latest video Christina Aguilera sprawls in a dark rubber and leather costume, and in fat-positive defiance of the current ideal of beauty, Karl Lagerfeld's sex-cracker muse Beth Ditto, squeezes herself into a shocking pink latex cat suit. But music's most recognizable ambassador of the slick and tight is surely Lady Gaga. For her audience with the Queen of England, she audaciously decided to wear an opulent red latex dress by designer Atsuko Kudo. We can happily bid adieu to the days of baggy shirts and cotton leggings. Even Burlesque's nostalgia for the square days of old is giving way to this new love of extravagance and experimentation. What only turned on goths, new wave fans and fetishists is now consumed and adapted by the mainstream for itself. Even Vogue magazine takes up the cudgel for these formerly freakish and ghettoized materials. In an online article, they write: "Be naughty and you sit in the spotlight. Times change. Trends change. The fetish-look is no longer relegated to the silent room, but with raised head (it is) carrying a lot of style and a charming wink. The fun of fashion with previously taboo material such as latex paint and leather outfits is standing in the foreground." For Latex Fashion Photography GOLIATH PUBLISHING brought together the best and most interesting latex fashion labels from across the world, drawing from the trendy, the fashionable and the erotic. On 384 pages more than 60 photographers portray the unique creations and clothes of designers such as Atsuko Kudo (designer to Lady Gaga, Eva Mendes, Kate Moss and more), and Berlin label Très Bonjour (designer to Katy Perry). Over 30 of the most famous fetish models, among them Ulorin Vex, Eden, Bianca Beauchamp and Mosh, present themselves as latex punks, rock n roll riot girls, modern pinups, and space girls and femmes fatales. !! FETISH Nov 18 2021 "Fetish fashion" is the term used to describe the intrinsic link between clothing and sexual fetishes, with materials like leather, lace, latex, and rubber holding particular prominence. Today, leather fetishwear is worn by leathersmen like Max in sex clubs, parties, Pride parades and hook-ups, but some incorporate leather into their everyday lives, too. Common clothes and accessories include leather trousers, boots, jackets, gloves, ties and caps, with harnesses, masks and jockstraps more often worn during sexual encounters. More than 100 photos realized in LIGHT PAINTING, a photography technique that uses a moving light source (e.g., a flashlight) to add light to a subject while taking a long-exposure photograph. A scene or object can be brought to life by painting with a beam of light. When light painting, the photographer, become an entirely different kind of artist. Instead of just capturing an image as it's presented, he create the image that the camera is capturing. Alberto de Chirico (photographer well known also as Demian Savinio) is the alter ego of Domiziano Cristopharo, the internationally acclaimed actor and movie director who came to prominence with movies like "House of Flesh Mannequins" (Los Angeles, 2008) or "Red Krokodil" (USA/Italy 2012). de Chirico's fine art photography has been the subject of CD covers, film posters, and exhibitions, as well as much-sought-after art residing in significant private collections.

Anatomy of Steampunk Aug 23 2019 DIVFrom formal outfits to costumes crafted for the stage, from ensembles suited to adventure to casual street styles, steampunk fashion has come to encompass quite a few different looks. But what exactly is steampunk? Originally conceived as a literary genre, the term "steampunk" described stories set in a steam-powered, science fiction-infused, Victorian London. Today steampunk has grown to become an aesthetic that fuels many varied art forms. Steampunk has also widened its cultural scope.
