*Key Skills in Information Technology* Aug 07 2020 This book is a new, updated edition of the indispensable class text for use by both non-IT specialists and IT teachers. It covers all the IT skills needed to achieve the Key Skills Certificate in Information Technology at Levels 2 and 3, and explains exactly how the student can build a portfolio of evidence to achieve the qualification. It will be a useful text for students doing project work for GCSE Information Technology. It covers techniques in Windows, Word, Excel, Access, PowerPoint, Internet Explorer, Publisher. It covers topics in the use of IT as required by the Key Skills Specifications. It demonstrates how to gather evidence and build a portfolio to gain the Key Skills qualification. It contains advice and examples of activities to demonstrate IT key skill competences. Sample exam questions are included to give students practice for the externally set test. Each chapter is cross-referenced to the relevant key skill specification. Answers to questions, OHP masters, sample forms and sample portfolio evidence can be downloaded from the publisher's website .

*Diamond Stories* Dec 11 2020 Sequestered within the heart of a cosmopolitan city is an exotic world—a place where diamonds, astronomically priced, are bought and sold on the strength of a handshake, and business disputes are resolved according to ancient Jewish principles of arbitration. Yet it is also a modern industry facing the same fundamental global changes affecting all businesses today. In *Diamond Stories*, Renée Rose Shield leads us into the unexamined realm of wholesale diamond traders in New York. Related to several well-respected traders, she had unprecedented access to a society normally closed to outside inquiry. Here she deftly blends her personal relationship and her anthropological training to provide an insightful exploration of this tradition-bound industry, the new challenges it faces, and the ways both industry and individuals adapt to and endure change. Shield begins with a fascinating history of diamond mining, combining the story of the De Beers cartel, the role of Jews in the trade, and the part diamonds have played both in war and liberation. Throughout, she incorporates commentary by current diamond traders. Succeeding chapters explore the evolving nature of both the global trade and the New York diamond district. Shield takes a close look at the increasingly complex ethnic makeup of the district, illuminates the rarely documented work done by women, chronicles the resilient system of arbitration, and reveals the ways in which many traders work well into their eighties and nineties. Their long lives of work, cushioned by the trade's social environment, offer hints for successful aging in general.

The Economics of Recreation, Leisure and Tourism Jul 26 2019 Now in its third successful edition, The Economics of Leisure and Tourism has been fully revised and updated to cover all the latest issues and changes, and more. Essentially a real world text in applied economics, it explains the necessary economic theories from first principles and applies them to a range of leisure and tourism problems and issues at the consumer, business, national and international level. Key themes discussed are: \* How is the provision of leisure and tourism determined and could it be provided in a different way? \* What are the key opportunities and threats facing leisure and tourism & environmental impacts? \* How can economics be used to manage leisure and tourism? International in its outlook, this text uses examples from Brazil, China, India and Japan, as well as Europe, North America and Australia. With an accompanying website with links and Powerpoint resources for lecturers, this new edition provides: \* New chapters on regeneration, tourism as an economic development strategy, globalisation and political economy of tourism. \* Introduction of dependency theory and development economics theories \* Liberal use of press cuttings, journal articles and international case studies \* User friendly learning features such as: visual mapping of chapter contents, chapter objectives, summaries of key points' short answer questions.
