The Bible's Answers to 100 of Life's Biggest Questions Apr 16 2021 Every believer has questions about God, the Bible, Jesus, and the purpose and meaning of life. The vexing problem is that so few believers are able to answer even the most basic ones. Without answers, doubt creeps in and the future of the church is in jeopardy. With insight and precision, Geisler and Jimenez address one hundred penetrating questions that the culture asks and Christians must be prepared to answer, including both controversial questions raging in the public sphere and personal questions about family issues, the purpose and meaning of life, and the future of the world. Christians from every walk of life, especially young believers, youth workers, and parents, will treasure this comprehensive resource. Foreword by Josh and Sean McDowell.

Answers for the Honest Skeptic Jul 08 2020 It is true that mankind himself has probably always been characterized with the main desire to determine just what spiritual truth really is. For centuries and centuries, highly educated philosophers and religious men alike have always stood toe to toe, disagreeing on spiritual truth. Since they cannot all be right, this would strongly indicate that education, religious persuasion, or even intelligence has little to do with our discovery of the real spiritual truth. For if these things were truly critical, then obviously the spiritual/intellectual giants of history would have agreed on spiritual truth long ago. In this work, author Ted Even endeavors to show that the disagreeing intellectuals/skeptics of the past only serve to reinforce Christ's radical statement about our need to just become like little children in order to discover the spiritual truth, and that literally everyone has the same opportunity to enter the kingdom of heaven on that basis. However, while super intelligence or big degrees may not be necessary, the discovery of spiritual truth does require just one very reasonable quality of heart, which little children have always possessed. Find out just what this basic quality of heart is,

as you continue your search for spiritual truth within this simple-to-understand work which only leaves the real spiritual truth left standing.
