Achieving Universal Energy Access in India Jan 13 2021 Forty-five per cent of India's rural population is without electricity and over 85 per cent is dependent on biomass to meet its cooking needs. Projections suggest that if the present trends continue, a large section of India's rural population will remain without access to modern energy services even in 2030. It also follows that energy access is not only a critical component for reducing rural poverty and drudgery but it is also one of the fundamental conditions for holistic rural development. The book takes a critical look at the present energy policy and addresses ways to improve energy penetration. In doing so it encourages the use of renewable energy as an alternate medium, challenging the traditional power proponents.

Upgrading Informal Settlements in South Africa Dec 12 2020 More than 1.2 million households in South Africa live in informal settlements, without access to adequate shelter, services or secure tenure. There has been a gradual shift to upgrading these informal settlements in recent years, and there have been some innovative experiments. Upgrading Informal Settlements in South Africa: a partnership-based approach examines the successes and challenges of informal settlement upgrading initiatives in South Africa and contextualises these experiences within global debates about informal settlement upgrading and urban transformation. The book discusses: · The South African informal settlement upgrading agenda from local, national and international perspectives · South African 'city experiences' with informal housing and upgrading · The role of partnerships, actors and capabilities in pursuing an incremental upgrading agenda · Tools, instruments and methodologies for incremental upgrading · Implications of the upgrading agenda for the transformation of cities The book has been written and edited by a wide range of practitioners and researchers from government, NGOs, the private sector and academia. It covers theory and practice and represents a vast accumulated body of housing experience in South Africa.

The Two Degrees Dangerous Limit for Climate Change Nov 22 2021 This book is about the history, present and future of one the most important policy ideas of the modern era – that there is a single, global dangerous amount of climate change. That dangerous amount of climate change is imagined as two degrees centigrade of global warming above the pre-industrial average. Though the two degree idea is based on the value system of elite policy actors, it is been constructed in public discourses as scientific fact. This false representation of the concept undermines opportunities for positive public engagement with the climate policy debate, yet it is strong public engagement which is a recurring aspiration of climate policy discourses and is considered essential if climate mitigation strategies are to work. Alongside a critical analysis of how the idea of a single dangerous limit has shaped our understanding of what sort of problem climate change is, the book explains how the public have been kept out of that decision making process, the implications of this marginalisation for climate policy and why the dangerous limit idea is undermining our ability to mitigate climate change. The book concludes by exploring possibilities for a deliberation

about the future of the two degree limit which allows for public participation in the decision making process. This book illustrates why, at this critical juncture in the climate policy debate, the two degree limit idea has failed to achieve any of the policy goals intended. This is the first book dedicated to questioning the issue of the two degree limit within a social science framework and should be of interest to students and scholars of environmental policy and politics, climate change communication, and science, technology and society studies.

NTA UGC NET Paper 1 Topic-wise 52 Solved Papers (2020 to 2004) 2nd Edition Oct 29 2019

NTA UGC NET Paper 1 Topic-wise 50 Solved Papers (2019 to 2004) Nov 30 2019

Smart Cities as Democratic Ecologies Jul 31 2022 The concept of the 'smart city' as the confluence of urban planning and technological innovation has become a predominant feature of public policy discourse. Despite its expanding influence, however, there is little consensus on the precise meaning of a 'smart city'. One reason for this ambiguity is that the term means different things to different disciplines. For some, the concept of the 'smart city' refers to advances in sustainability and green technologies. For others, it refers to the deployment of information and communication technologies as next generation infrastructure. This volume focuses on a third strand in this discourse, specifically technology driven changes in democracy and civic engagement. In conjunction with issues related to power grids, transportation networks and urban sustainability, there is a growing need to examine the potential of 'smart cities' as 'democratic ecologies' for citizen empowerment and user-driven innovation. What is the potential of 'smart cities' to become platforms for bottom-up civic engagement in the context of next generation communication, data sharing, and application development? What are the consequences of layering public spaces with computationally mediated technologies? Foucault's notion of the panopticon, a metaphor for a surveillance society, suggests that smart technologies deployed in the design of 'smart cities' should be evaluated in terms of the ways in which they enable, or curtail, new urban literacies and emergent social practices.

The Value of Comparative Federalism Mar 15 2021 This book explores new avenues of international research in comparative federal studies. It re-examines the conceptual tools and methodologies for understanding federal systems, and the role of comparative federalism in the dissemination and implementation of federal concepts. It highlights the influence of comparative federalism on constitution-making as well as constitutional reforms. The volume provides innovative and pragmatic perspectives from both the Global North and the Global South, with case studies drawn from established federations such as India, Canada, Australia, and Austria, and emerging federal systems such as Italy and South Africa. Advocating a combined approach that integrates modern and traditional theoretical routes with practical insights and contemporary analyses, it discusses the issues of multilevel elections and federal governance; coalition governments and multiparty democracy in parliamentary federal systems, such as India; minority empowerment; gender budgeting; self-governance; multinational federalism; unitary states; the nation-state; and degenerating federalism. It also breaks new ground by looking at federalism from a gender perspective and deals with tools for measuring fiscal responsibility, and a social and cultural index. A tribute to the intellectual legacy of Ronald L. Watts, this volume will be useful to scholars and researchers of political science, federalism, comparative federal studies, political studies, comparative politics, governance, public administration and law, development studies, South Asian studies, and Global South and North studies as well policymakers, international government bodies, research institutes, development experts, and other organisations working in the area.

The Bombay university calendar Jul 27 2019

Flash Oct 22 2021 How Flash rose and fell as the world's most ubiquitous yet divisive software platform, enabling the development and distribution of a world of creative content. Adobe Flash began as a simple animation tool and grew into a multimedia platform that offered a generation of creators and innovators an astonishing range of opportunities to develop and distribute new kinds of digital content. For the better part of a decade, Flash was the de facto standard for dynamic online media, empowering amateur and professional developers to shape the future of the interactive Web. In this book, Anastasia Salter and John Murray trace the evolution of Flash into one of the engines of participatory culture. Salter and Murray investigate Flash as both a fundamental force that shaped perceptions of the web and a key technology that enabled innovative interactive experiences and new forms of gaming. They examine a series of works that exemplify Flash's role in shaping the experience and expectations of web multimedia. Topics include Flash as a platform for developing animation (and the "Flashimation" aesthetic); its capacities for scripting and interactive design; games and genres enabled by the reconstruction of the browser as a games portal; forms and genres of media art that use Flash; and Flash's stance on openness and standards—including its platform-defining battle over the ability to participate in Apple's own proprietary platforms. Flash's exit from the mobile environment in 2011 led some to declare that Flash was dead. But, as Salter and Murray show, not only does Flash live, but its role as a definitive cross-platform tool continues to influence web experience.

Child and Adolescent Drug and Substance Abuse May 17 2021 By offering unique analysis and synthesis of theory, empirical research, and clinical guidance in an up-to-date and unbiased context, this book assists health and social care professionals in understanding the use of drugs and substances of abuse by children and adolescents. A comprehensive reference for health and social care professionals, the book identifies and corrects related false narratives and, with the use of the authors' combined experience of over 70 years of clinical and academic experience in drug and substance abuse, provides current pharmacotherapeutic and psychotherapeutic approaches for the treatment of alcohol or other dependence or use disorders among children and adolescents. The book also provides a useful reference for identifying brand/trade and street names of the drugs and substances of abuse commonly used by children and adolescents. Also included is a comprehensive, cross-referenced subject index. Clear, comprehensive, accessible, and fully referenced, this book will be an invaluable resource for professionals and students who aim to treat children and adolescents. *Child and Adolescent Drug and Substance Abuse* is the 19th clinical pharmacology and therapeutic text that the Pagliaros have written over the past 40 years and is the sixth that deals exclusively with drug and substance abuse.

Critical Social Psychology of Social Class Jun 25 2019 This book argues for the importance of considering social class in critical psychological enquiry. It provides a historical overview of psychological research and theorising on social class and socio-economic status; before examining the ways in which psychology has contributed to the surveillance, regulation and pathologisation of the working-class 'Other'. The authors highlight the cost of recent austerity policies on mental health and warn against the implementation of further austerity measures in the current climate The book pulls together perspectives from critical social psychology, feminist psychology, sociology and other critical research which examines the discursive production of social class, classism and classed identities. The authors explore social class in educational and occupational settings, and analyse the intersections between class and other social categories such as gender, race, ethnicity and sexuality. Finally, they consider key issues in debates around social class in the broader social sciences, such as the limitations of approaches informed by poststructuralist theory. This book will be a useful resource for both academics and students studying class from a critical perspective.

Advanced Concepts for Renewable Energy Supply of Data Centres Aug 27 2019 The rapid increase of cloud computing, high performance computing (HPC) and the vast growth in Internet and Social Media use have aroused the interest in energy consumption and the carbon footprint of Data Centres. Data Centres primarily contain electronic equipment used for data processing (servers), data storage (storage equipment), and communications (network equipment). Collectively, this equipment processes, stores, and transmits digital information and is known as information technology (IT) equipment. Advanced Concepts for Renewable Energy Supply of Data Centres introduces a number of technical solutions for the supply of power and cooling energy into Data Centres with enhanced utilisation of renewable energy sources in order to achieve low energy Data Centres. Because of the high energy density nature of these unique infrastructures, it is essential to implement energy efficiency measures and reduce consumption before introducing any renewable energy source. A holistic approach is used with the objective of integrating many technical solutions such as management of the IT (Information Technology) load, efficient electrical supply to the IT systems, Low-Ex air-conditioning systems, interaction with district heating and cooling networks, re-use of heat, free cooling (air, seawater, groundwater), optimal use of heat and cold storage, electrical storage and integration in smart grids. This book is therefore a catalogue of advanced technical concepts that could be integrated into Data Centres portfolio in order to increase the overall efficiency and the share of renewable energies in power and cooling supply. Based on dynamic energy models implemented in TRNSYS some concepts are deeply evaluated through yearly simulations. The results of the simulation are illustrated with Sankey charts, where the energy flows per year within the subsystems of each concept for a selected scenario are shown, and graphs showing the results of parametric analysis. A set of environmental metrics (as the non-renewable primary energy) and financial metrics (CAPEX and OPEX) as well of energy efficiency metrics like the well-known PUE, are described and used to evaluate the different technical concepts.

Territorial Army Officers 2021 Exam Paper 1 and 2 Sep 01 2022 1. A complete study guide for the Territorial Army Officer 2. The entire syllabus is divided into 4 parts. 3. Current Affairs are given in the separate section 4. Solved Papers are provided to give the insight of the exam questions 5. 3 Mock tests are given for thorough practice 6. Well detailed answers are provided for each question for better understanding Serve the nation in two capacities– as a civilian and as a soldier. Applications are invited from gainfully employed young citizens for an opportunity to put on the uniform and serving the nation as Territorial Army Officers (Non Departmental). The current updated edition of “Territorial Army Officer Recruitment Exam (Male & Female)” serves as a study guide for candidates who are aiming to appear in the exam. The entire syllabus of the book is divided into 4 parts as per the latest syllabus, special section is also allotted to current affairs. Based on the exam pattern, it provides Solved Papers, giving insights of the exam questions. With the easy to understand language and student friendly notes this book is a total package of preparation. TABLE OF CONTENT Current Affairs, Solved Papers 2019, Solved papers 2017, Solved Paper 2016, Solved Paper 2015, Elementary Mathematics, English, Reasoning, General Knowledge, 3 Mock Tests.

12 YEAR-WISE CTET Paper 1 Solved Papers (2011 - 2019) - 2nd English Edition Jan 25 2022

Understanding Match-Fixing in Sport Jun 05 2020 Bringing together leading match-fixing researchers from different fields, this book offers new theoretical and applied perspectives on this persistent problem in sport and wider society. The book explores the foundations of match-fixing from multiple viewpoints, from sociology and criminology to policy and governance, exploring topics such as the use of network governance theory, ethics and integrity, and management aspects that position match-fixing in sport’s commercial landscape. Featuring cases and data from all around the world, the book explains how match-fixing has become a prominent feature of contemporary sport, and considers the efficacy and practicability of interventions to solve these problems. This is fascinating and important reading for any advanced student, researcher, practitioner, or policymaker with an interest in sport management, sports business, sport policy, sport development, sport law, or criminology.

Identity Theft: Breakthroughs in Research and Practice Mar 27 2022 The preservation of private data is a main concern of governments, organizations, and individuals alike. For individuals, a breach in personal information can mean dire consequences for an individual’s finances, medical information, and personal property. Identity Theft: Breakthroughs in Research and Practice highlights emerging perspectives and critical insights into the preservation of personal data and the complications that can arise when one’s identity is compromised. This critical volume features key research on methods and technologies for protection, the problems associated with identity theft, and outlooks for the future. This publication is an essential resource for information security professionals, researchers, and graduate-level students in the fields of criminal science, business, and computer science.

Managing Security Issues and the Hidden Dangers of Wearable Technologies Feb 23 2022 Advances in mobile computing have provided numerous innovations that make people’s daily lives easier and more convenient. However, as technology becomes more ubiquitous, corresponding risks increase as well. Managing Security Issues and the Hidden Dangers of Wearable Technologies examines the positive and negative ramifications of emerging wearable devices and their potential threats to individuals, as well as organizations. Highlighting socio-ethical issues, policy implementation, and appropriate usage, this book is a pivotal reference source for professionals, policy makers, academics, managers, and students interested in the security and privacy implications of wearable digital devices.

A Stakeholder Approach to Managing Food Jun 17 2021 This research anthology explores the concept of food production and supply, from farm gate to plate, bringing together contemporary thinking and research on local, national, and global issues from a stakeholder perspective. A Stakeholder Approach to Managing Food includes a number of sections to represent these challenges, opportunities, conflicts, and cohesions affecting relevant stakeholder groups within food production and supply and their reaction to, engagement with, and co-creation of the food environment. For some, local, national, and global interests may seem at odds. We are in an era of growing and pervasive multi-national corporations, and these corporations have significant influence at all levels. Rapidly growing economies such as China are a focus for the global brand, but is this a scenario of adaptation or homogenization of food? Alongside this trend toward national and global development in food, this volume presents the counter-reaction that is taking place (especially in developed countries) toward local speciality and culturally bound foods, with emphasis on the importance of the inter-connection of local communities and agri-food culture and economy. With an in-depth analysis of agricultural businesses, this book shows that the entrepreneurial spirit is alive and well in rural communities with often renewed and engaged connection with consumers and imaginative use of new media. This book will be of interest to students, researchers and policy-makers concerned with agriculture, food production and economics, cultural studies.

Taxmann's CRACKER for Accounting (Paper 1 | Accounts) – Covering past exam questions (sub-topic wise) & detailed answers plus RTPs/MTPs of ICAI for CA Inter | Nov. 2022 Exams Jan 31 2020 This book is prepared exclusively for the Intermediate Level of Chartered Accountancy Examination requirement. It covers the questions & detailed answers strictly as per the new syllabus of ICAI. The Present Publication is the 4th Edition & updated till 30th April 2022 for CA-Inter | New Syllabus | Nov. 2022/May 2023 exams. This book authored by CA Parveen Sharma & CA Kapileshwar Bhalla, with the following noteworthy features: • Strictly as per Revised Syllabus of ICAI • Coverage of this book includes: o Past Exam Questions § CA Intermediate November 2020 – Accounting § CA Intermediate January 2021 – Accounting § CA Intermediate July 2021 – Accounting § CA Intermediate May 2022 – Accounting o Questions from RTPs and MTPs of ICAI • [Arrangement of Question] Questions in each chapter are arranged 'sub-topic' wise • [Marks Distribution] Chapter-wise marks

distribution • [Trend Analysis] for the Previous Exams from (Nov 2020 Onwards | New Syllabus) • [Comparison with Study Material] Chapter-wise comparison with ICAI Study Material Contents of this book are as follows: • Applicability of Accounting Standards • Framework for Preparation & Presentation of Financial Statements • Overview of Accounting Standards • Financial Statements of Companies • Profit or Loss prior to Incorporation • Bonus Issue & Right Issue • Redemption of Preference Shares • Redemption of Debentures • Investment Accounts • Insurance Claims • Hire Purchase • Departmental • Branch Accounting • Accounting from Incomplete Records (Single Entry)

Deins ist Meins Jan 01 2020 Airbnb, Uber und andere Unternehmen der Sharing Economy geben sich als Speerspitze eines neuen Wirtschaftens. Sie künden von einer Epoche, in der wir Eigentum und Dienstleistungen unter Gleichen teilen und tauschen. Die altbekannten Probleme des Kapitalismus – Überproduktion, Ressourcenverschwendung und Umweltzerstörung – könnten auf diese Weise gelöst werden, so das Versprechen, und Vertrauensbeziehungen zwischen vormals Fremden würden zu einer neuen, besseren Gesellschaft führen. Dieses Buch blickt hinter die Fassade und zeigt ein völlig anderes Bild: Einige wenige Firmen, die längst in den Händen der großen Risikokapitalgeber liegen, verdienen Milliarden an der Vermittlung von Teilen und Tauschen. Dabei dringen sie in vormals nicht ökonomisierte Lebensbereiche wie die Nachbarschaftshilfe vor, umgehen Errungenschaften wie Arbeitsschutzgesetze und Mindestlohn und verschärfen die Wohnungsnot in den Metropolen der Welt. Damit verlagern sie das unternehmerische Risiko vollständig auf ihre Vertragspartner und schaffen ein neues Prekariat aus Tagelöhnern, das sich mit mager bezahlten Gelegenheitsjobs mühsam über Wasser hält. Deins ist meins zeigt, wie sich eine gute Idee in ein ausbeuterisches Geschäftsmodell verwandelt hat, und stellt uns die unbequeme Frage, ob das die schöne neue Welt ist, zu der wir durch unser Konsumverhalten beitragen wollen.

Projecting Resilience Across the Mediterranean Oct 10 2020 This book examines the strategies pursued by the North Atlantic Treaty Organization (NATO) and the European Union (EU) to foster resilience in the Middle East, Maghreb and Sahel regions, ranging from military operations to humanitarian assistance. Thanks to its constructive ambiguity, resilience can bring together policy communities and connect sponsors of reform with local societies, but also bridge rifts between and within the EU and NATO. However, existing resilience-based policies are fraught with policy, theoretical and normative dilemmas. This volume examines these dilemmas by including international relations, European politics and area studies scholars, as well as practitioners from armed forces, international organisations, humanitarian NGOs and think tanks.

System Level ESD Co-Design Sep 08 2020 An effective and cost efficient protection of electronic system against ESD stress pulses specified by IEC 61000-4-2 is paramount for any system design. This pioneering book presents the collective knowledge of system designers and system testing experts and state-of-the-art techniques for achieving efficient system-level ESD protection, with minimum impact on the system performance. All categories of system failures ranging from 'hard' to 'soft' types are considered to review simulation and tool applications that can be used. The principal focus of System Level ESD Co-Design is defining and establishing the importance of co-design efforts from both IC supplier and system builder perspectives. ESD designers often face challenges in meeting customers' system-level ESD requirements and, therefore, a clear understanding of the techniques presented here will facilitate effective simulation approaches leading to better solutions without compromising system performance. With contributions from Robert Ashton, Jeffrey Dunning, Micheal Hopkins, Pratik Maheshwari, David Pomerence, Wolfgang Reinprecht, and Matti Usumaki, readers benefit from hands-on experience and in-depth knowledge in topics ranging from ESD design and the physics of system ESD phenomena to tools and techniques to address soft failures and strategies to design ESD-robust systems that include mobile and automotive applications. The first dedicated resource to system-level ESD co-design, this is an essential reference for industry ESD designers, system builders, IC suppliers and customers and also Original Equipment Manufacturers (OEMs). Key features: Clarifies the concept of system level ESD protection. Introduces a co-design approach for ESD robust systems. Details soft and hard ESD fail mechanisms. Detailed protection strategies for both mobile and automotive applications. Explains simulation tools and methodology for system level ESD co-design and overviews available test methods and standards. Highlights economic benefits of system ESD co-design.

Cambridge International AS and A Level Mathematics: Pure Mathematics 1 Coursebook May 05 2020 Cambridge AS and A Level Mathematics is a revised series to ensure full syllabus coverage. This coursebook has been revised and updated to ensure that it meets the requirements for the Pure Mathematics 1 (P1) unit of Cambridge AS and A Level Mathematics (9709). Additional materials have been added to sections on quadratics, coordinate geometry, vectors and differentiation. All of the review questions have been updated to reflect changes in the style of questions asked in the course.

Efficiently Conducting Quality-of-Service Analyses by Templating Architectural Knowledge Aug 08 2020

The New US Strategy towards Asia Sep 20 2021 Barack Obama's "rebalancing" or "pivot" strategy, intended to demonstrate continued US commitment to the Asia-Pacific region in a variety of military, economic, and diplomatic contexts, was launched with much fanfare in 2011. Implicit in the new strategy is both a focus on China – engagement with, and containment of – and a heavy reliance by the United States on its existing friends and allies in the region in order to implement its strategy. This book explores the impact of the new strategy on America's regional friends and allies. It shows how these governments are working with Washington to advance and protect their distinct national interests, while at the same time avoiding any direct confrontation with China. It also addresses the reasons why many of these regional actors harbour concerns about the ability of the US to sustain the pivot strategy in the long run. Overall, the book illustrates the deep complexities of the United States' exercise of power and influence in the region.

Health Policy Analysis Apr 15 2021 "This text is about the process of developing health policy relevant to the United States. We have included the perspectives of a number of disciplines and professions. We have drawn heavily on our personal experiences and backgrounds, which include economics, political science, management, communications, and public health. We have also drawn on the experiences of other countries"--

Muslim Fashion Apr 03 2020 In the shops of London's Oxford Street, girls wear patterned scarves over their hair as they cluster around makeup counters. Alongside them, hip twenty-somethings style their head-wraps in high black topknots to match their black boot-cut trousers. Participating in the world of popular mainstream fashion—often thought to be the domain of the West—these young Muslim women are part of an emergent cross-faith transnational youth subculture of modest fashion. In treating hijab and other forms of modest clothing as fashion, Reina Lewis counters the overuse of images of veiled women as "evidence" in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity. Muslim Fashion contextualizes modest wardrobe styling within Islamic and global consumer cultures, interviewing key players including designers, bloggers, shoppers, store clerks, and shop owners. Focusing on Britain, North America, and Turkey, Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion, identity, and ethnicity.

OPSC General Studies Paper 1 (For Odisha Civil Service Preliminary Exams) 2021 May 29 2022 1. The OPSC General Studies I Preliminary Examination is a complete study guide 2. The book is divided into 8 main Sections 3. Solved Papers and 5 Crack Sets for practice

4. Easy to understand Language and Student friendly content for easy learning Odisha Public Service Commission has recently released a notification announcing 392 vacancies for Group A and Group B posts under Odisha Civil Services. Interested candidates must have a bachelors' degree from the recognized institutions. The revised edition of OPSC General Studies I Preliminary Examination serves as complete study guide for those who are appearing for the examination. The book is divided into 8 Main Sections under which each section either divided into Sub Section or Chapters for the complete preparation. Apart from all the theoretical studies, this book also focuses on the practice portion of candidates by providing Solved Papers and 5 Crack Sets for practice to get exact idea paper the pattern. Providing a complete coverage of the latest syllabus of OPSC Paper I, this book helps to score best in the upcoming OPSC prelims 2021. TOC Solved Papers (2019-2015), HISTORY OF INDIA AND INDIAN NATIONAL MOVEMENT, GEOGRAPHY, INDIAN POLITY AND GOVERNANCE, INDIAN ECONOMY, ENVIRONMENTAL ECOLOGY, SCIENCE, GENERAL KNOWLEDGE, ODISHA: ABOUT THE STATE, 5 crack sets.

Ultimate Guide for FCI Assistant Grade - III Recruitment Exam Paper 1 & 2 Apr 27 2022 The book "Ultimate Guide for FCI Assistant Grade - III Recruitment Exam Paper 1 & 2" has been written exclusively for the vacancies of General, Depot, Technical and Accounts cadre. The Salient Features of the Book; Comprehensive Sections on : Quantitative Aptitude, General Intelligence - Verbal & Non Verbal, English Language and General Awareness; Exhaustive question bank at the end of each chapter. Solutions to the questions have been provided at the end of each chapter. The covers the complete syllabus of Paper 1 & 2. The Data Interpretation section has been provided for paper 2.

10 YEAR-WISE CTET Paper 1 Solved Papers (2011 - 2018) - English Edition Dec 24 2021 10 YEAR-WISE CTET Paper 1 Solved Papers (2011 - 2018) - English Edition contains Past 10 Solved Papers of the CTET exam. The past CTET Solved papers included are : June 2011, Jan & Nov 2012, July 2013, Feb & Sep 2014, Feb & Sep 2015 and Feb & Sep 2016 Papers. The languages covered in the tests are English (1st language) and Hindi (2nd language).

Multiculturalism in East Asia Mar 03 2020 An examination of multiculturalism in East Asia using a transnational approach. The collection focuses in on Japan, Korea and Taiwan to examine key issues including policy, racial discourse, subjectivity and the implications for established ethnic minority communities.

Encyclopedia of the World's Biomes Sep 28 2019 Encyclopedia of the World's Biomes is a unique, five volume reference that provides a global synthesis of biomes, including the latest science. All of the book's chapters follow a common thematic order that spans biodiversity importance, principal anthropogenic stressors and trends, changing climatic conditions, and conservation strategies for maintaining biomes in an increasingly human-dominated world. This work is a one-stop shop that gives users access to up-to-date, informative articles that go deeper in content than any currently available publication. Offers students and researchers a one-stop shop for information currently only available in scattered or non-technical sources Authored and edited by top scientists in the field Concisely written to guide the reader though the topic Includes meaningful illustrations and suggests further reading for those needing more specific information

Information Security Practices for the Internet of Things, 5G, and Next-Generation Wireless Networks Jul 19 2021 Information security practices are the backbone of smart factories, which dynamically coordinate and optimize production processes based on data produced and collected by the underlying cyber-physical systems, in terms of resource usage. Recent advances in the best practices, opportunities, challenges, and benefits of information security must be studied and considered for businesses across sectors to successfully utilize the practices in their internet of things, 5G, and next-generation wireless networks. Information Security Practices for the Internet of Things, 5G, and Next-Generation Wireless Networks highlights research on secure communication of 5G, internet of things, and next-generation wireless networks along with related areas to ensure secure and internet-compatible internet of things systems. The book also discusses the effects of the internet of things technologies on various situations in smart city design. Covering a range of topics such as secure communications and security evaluations, this reference work is ideal for industry professionals, business owners, engineers, researchers, scholars, practitioners, academicians, instructors, and students.

Social Finance Feb 11 2021 Social Finance brings together rapid advances in what used to be called socially responsible investment. For example, finance for green businesses, and to support economic development both in deprived areas and developing countries. This book is the first serious and comprehensive treatment of the phenomenon. (Quelle: buch.ch)
