Polybius and Roman Imperialism Oct 28 2019 Polybius and Roman Imperialism explores in depth the complexity of the Greek historian Polybius' views on the expansion of Roman power. Although he considered imperialism intrinsically noble, and both admired and supported Roman domination, Polybius also evinced detachment from the ruling power. This detachment came in different forms: personal, cultural, patriotic and cultural. In general, he believed that the Romans cited morally acceptable pretexts for declaring war, observed justice in other aspects of foreign policy, and practised beneficence and moderation in their dealings with subject nations. Even with less than half of the original text surviving, the author reveals Polybius' personality and political philosophy.

**Romans** Mar 26 2022 With a scholar's mind and a pastor's heart, Tom Wright walks you through Romans in this guide designed especially with everyday readers in mind. Perfect for group use or daily personal reflection, this study uses the popular inductive method combined with Wright's thoughtful insights to bring contemporary application of Scripture to life.

*Roman Mythology* Nov 21 2021 The perfect guide to Roman myths and the landscapes and ideas that shaped them—for both the actual and armchair traveler. All roads lead to Rome, as the

famous saying goes. Rome was a melting pot of peoples from across the Mediterranean and beyond, each bringing their own myths and legends of heroes and heroines, gods and goddesses. Roman myths formed the backdrop to the rituals and customs of everyday life, from the way aristocrats dressed up for a banquet to the bloodthirsty audiences thrilled to watch criminals forced to enact the roles of mythological characters. In *Roman Mythology*, David Stuttard offers an innovative approach to the subject, taking the reader on a tour of the great sites of the ancient Roman world. Each account begins with a brief, evocative description of the location and landscape, followed by its associated myths and stories, as well as any rituals performed there in antiquity. Drawing on the great works of Dionysius of Halicarnassus, Plutarch, Ovid, Horace, and Virgil, and with commissioned maps and illustrations, as well as practical information about the sites today, this book is a fresh look at a subject of great fascination. Compact enough to fit in a backpack, *Roman Mythology* is perfect for both the armchair and experienced traveler.

**Yoga** Jan 12 2021 Millions of people practice some form of yoga, but they often do so without a clear understanding of its history, traditions, and purposes. This comprehensive bibliography, designed to assist researchers, practitioners, and general readers in navigating the extensive yoga literature, lists and comments upon English-language yoga texts published since 1981. It includes entries for more than 2,400 scholarly as well as popular works, manuals, original Sanskrit source text translations, conference proceedings, doctoral dissertations, and master's theses. Entries are arranged alphabetically by author for easy access, while thorough author, title, and subject indexes will help readers find books of interest.

**Literary Studies** Sep 07 2020 *Literary Studies: A Practical Guide* provides a comprehensive foundation for the study of English, American, and world literatures, giving students the critical skills they need to best develop and apply their knowledge. Designed for use in a range of literature courses, it begins by outlining the history of literary movements, enabling students to contextualize a given work within its cultural and historical moment. Specific focus is then given to the use of literary theory and the analysis of: Poetry Prose fiction and novels Plays Films. A detailed unit provides clear and concise introductions to literary criticism and theory, encouraging students to nurture their unique insights into a range of texts with these critical tools. Finally, students are guided through the process of generating ideas for essays, considering the role of secondary criticism in their writing, and formulating literary arguments. This practical volume is an invaluable resource for students, providing them with the tools to succeed in any English course.

Expert background on Andalusia's history, culture and wildlife. - Maps and plans for every area.

**Housing the New Romans** Dec 11 2020 "In the last twenty years, reception studies have significantly enhanced our understanding of the ways in which Classics has shaped modern Western culture, but very little attention has been directed toward the reception of classical architecture. *Housing the New Romans: Architectural Reception and Classical Style in the Modern World* addresses this gap by investigating ways in which appropriation and allusion facilitated the reception of Classical Greece and Rome through the requisition and redeployment of classicizing tropes to create neo-Antique sites of "dwelling" in the 19th and early 20th centuries. The volume, across nine essays, will cover both European and American iterations of place making, including Sir John Soanes' house in London, the H<sup>ä</sup>otel de Beauharnais in Paris, and the Getty Villa in California. By focusing on structures and places that are oriented towards private life-houses, hotels, clubs, tombs, and gardens-the volume directs the critical gaze towards diverse and complex sites of curatorial self-fashioning. The goal of the volume is to provide a multiplicity of interpretative frameworks (e.g. object-agency enchantment, hyperreality, memory-infrastructure) that may be applied to the study of architectural reception. This critical approach makes *Housing the New Romans* the first work of its kind in the emerging field of architectural and landscape reception studies and in the hitherto textually dominated field of classical reception." -- provided by the publisher.

**The Gentleman's Magazine** Jan 30 2020 The "Gentleman's magazine" section is a digest of selections from the weekly press; the "(Trader's) monthly intelligencer" section consists of news (foreign and domestic), vital statistics, a register of the month's new publications, and a calendar of forthcoming trade fairs.

**World's Story 1: The Ancients (Teacher Guide)** Dec 23 2021 Ancient history is fascinating, but it can be difficult to find material that teaches it from a Christian perspective. Even harder is finding a history curriculum that captivates students. But Angela O'Dell's newly revised *The World's Story 1 - The Ancients* does both! Students will learn all about the ancient civilizations of the Middle East, Europe, Africa, Asia, and the Americas from a strong Biblical perspective. Focuses on History and interweaves a Christian perspective throughout. Features an engaging historical narrative. First volume in a three-book world history series for upper elementary and junior high students. The text covers Biblical history, also educating students about civilizations mentioned in the Bible, including ancient Egypt, ancient Israel, ancient Babylon, ancient Persia, ancient Greece, and ancient Rome, up to the development of the early Church. It also discusses other ancient civilizations from around the world.

*Cultural Identity in the Roman Empire* Sep 27 2019 This provocative and often controversial volume examines concepts of ethnicity, citizenship and nationhood, to determine what constituted cultural identity in the Roman Empire. The contributors draw together the most recent research and use diverse theoretical and methodological perspectives from archaeology, classical studies and ancient history to challenge our basic assumptions of Romanization and how parts of Europe became incorporated into a Roman culture. *Cultural Identity in the Roman Empire* breaks new ground, arguing that the idea of a unified and easily defined Roman culture is over-simplistic, and offering alternative theories and models. This well-documented and timely book presents cultural identity throughout the Roman empire as a complex and diverse issue, far removed from the previous notion of a dichotomy between the Roman invaders and the Barbarian conquered.

**Per Anhalter durch die Galaxis** Jun 16 2021 Was für ein Tag - Zuerst muss der Engländer Arthur Dent sein Haus räumen, weil mitten hindurch eine Umgehungsstraße gebaut werden soll. *The Romans For Dummies* Nov 02 2022 "A must for anyone interested in the Roman Empire and its impact on world history." —Tony Robinson, star of *Blackadder* and *Time Team*. This entertaining and informative guide is the perfect introduction to the amazing world of ancient Rome and its emperors, epic wars, awesome architecture, heroes, and villains. With a complete rundown of Roman history alongside fascinating insights into the lives of everyday Romans, you'll discover the amazing people and events involved in the rise and fall of one of the greatest of all ancient civilizations and how its influence is felt around the world today. If you've tuned into any of several TV shows focused on Rome and want to learn more about this fascinating part of history, *The Romans For Dummies* is the book for you. Schoolteachers and lecturers looking for light-hearted inspiration for lessons will also benefit from this riotous Roman adventure chronicling the rise and fall of the Empire. *The Romans For Dummies* is an accessible guide written in plain English giving you the fascinating facts of this ancient civilization. You'll learn about the following (and more): How Roman society was divided into classes The assemblies that ruled Rome Why villas were important to the Romans Details about the Roman army, including a Roman soldier's equipment The wonder of Roman architecture, cities, roads, aqueducts, and sewers Everything you ever wanted to know about gladiators and then some The importance of Roman temples, shrines, and the gods How Rome became a republic, an empire, and then collapsed Additionally, you'll learn about turning points in Roman history, (mostly) good and (some) bad Romans, Rome's greatest enemies, and great places to visit you won't want to miss on your next Roman holiday. Grab a copy of *The Romans For Dummies* to discover this and so much more. Guy de la Bédoyère is a historian, archaeologist, and Roman expert, he is well known for his numerous books and appearances on TV, especially Channel 4's *Time Team*. [R. G. Collingwood: A Research Companion](#) Oct 21 2021 R. G. Collingwood is an important 20th-century historian, archaeologist and philosopher whose works are the subject of continued interest, analysis and study. There is an unquestionable need to support this research activity with the provision of a reference guide which is fully up-to-date, informed and authoritative. The *Companion* therefore lists all primary and secondary material relevant to the study of Collingwood in all his fields of expertise - historical theory, philosophy and archaeology. It also provides a guide to archive material relevant to his life, together with sources and locations. The resulting volume is an essential companion to the understanding of the life and thought of R. G. Collingwood.

*The ICT Handbook for Primary Teachers* Mar 02 2020 The *ICT Handbook for Primary Teachers* will help all those involved in primary education, whether in training, teaching or leadership roles, to develop the ICT knowledge, understanding and skills required to enhance children's learning in the classroom. This new edition reflects the changes to the curriculum from 2014. It includes a new section on the Computing curriculum and an overview of the reorganisation of those online agencies that serve to support ICT. Covering theory and practise this essential handbook explores and outlines the usefulness of a wide range of up to date ICT resources in a range of primary contexts, and advice is offered on assessing whether ICT is preferable to other approaches for 'enhancing learning'. With reference to supplementary online resources, providing activities, multimedia resources and further reading, the book covers: the requirements of the new Computing curriculum, the place for ICT in enhancing teaching and learning across the curriculum, using ICT in core curriculum subjects and in cross-curricular contexts, different models of e-learning (interactive whiteboards, tablet PCs, mobile devices, the Internet etc), how ICT can be used to help pupils with special educational needs and using ICT for planning, delivery, assessment and recording. This book is an indispensable guide to ICT for students on

PGCE, BEd and undergraduate teaching courses, along with practising teachers, SENCOs, ICT coordinators and school leaders.

*Romanland* Nov 09 2020 Was there ever such a thing as the Byzantine Empire and who were those self-professed Romans we choose to call "Byzantine" today? At the heart of these two interlinked questions is Anthony Kaldellis's assertion that empires are, by definition, multiethnic. If there was indeed such a thing as the Byzantine Empire, which rules bounded majority and minority ethnic groups? The labels for the minority groups in Byzantium are clear - Slavs, Bulgarians, Armenians, Jews, Muslims. What was the ethnicity of the majority group? Historical evidence tells us unequivocally that no card-carrying Byzantine ever called himself "Byzantine." He would identify as Roman. This line of identification was so strong in the eastern empire that even the conquering Ottomans saw themselves as inheritors of the Roman Empire. In Western scholarship, however, there has been a long tradition of denying Romanness to Byzantium. In the Middle Ages, people of the eastern empire were made "Greeks," and by the nineteenth century they were shorn of their distorted Greekness and turned "Byzantine." In *Romanland*, Kaldellis argues that it is time for historians to take the Romanness of Byzantines seriously so that we can better understand the relations between Romans and non-Romans, as well as the processes of assimilation that led to the absorption of foreign groups into the Roman genos.--

*Roman Social History* Apr 26 2022 This lively and original guidebook is the first to show students new to the subject exactly what Roman social history involves, and how they can study it for themselves. After presenting a short history of the development and current position of the discipline, the author discusses the kinds of evidence that can be used, and the full range of resources available. Two case-studies provide practical examples of how to approach sources, and what we can learn from them. Clear, concise and accessible, with all text extracts translated into English, this is the ideal introduction to an increasingly popular subject.
