Interacting with Babylon 5 Sep 08 2020 "This book makes a significant contribution to the growing body of scholarship surrounding the participatory communities--i.e. fandoms--that surround television shows and films. . . . It will cut across disciplines, finding a readership among sociologists, anthropologists, media scholars, and performance scholars, as well as among fans and --Henry Jenkins, author of Textual Poachers: Television Fans and Participatory Culture Much of the pleasure of science fiction and fantasy stems from the genres' ability to transport fans to worlds that often feel more "real" than ordinary life. This pioneering book uses the insights of performance theory to explore how fans of the television show Babylon 5 actively immerse themselves in an imaginary environment by role-playing games and fan fiction, through which the fans perform--make real--fantasies they previously watched on television. Kurt Lancaster opens with a background analysis of Babylon 5, including creator-producer J. Michael Straczynski's online interaction with fans. Then he thoroughly examines the performance aspects of all the participatory media of the show--the role-playing game, collectable card game, war game, CD-ROM "guidebook," fan fiction, and web pages. His use of performance theory offers a new way of understanding the popularity of imaginary entertainment environments and the fandom surrounding other popular sites of science fiction and fantasy, including Star Trek, Star Wars, and J. R. R. Tolkien's Middle Earth." Babylon 5 May 17 2021

Die Biographie der "Hure Babylon" Sep 20 2021 English summary: Babylon is a subject which has been dealt with explicitly in many biblical texts and has always been more than just a geographical entity. All the levels of Babylon have been dealt with differently in the various texts and do often blend together, in particular in Jer 50-51 and Rev 17-19, and then completely in the dominant histories of reception. In detailed analyses of the various texts, Ulrike Sals shows how Babylon is depicted textually immanent and intertextual, since the biblical texts answer each other in that they provide a kind of biography of Babylon as a city or kingdom, woman and principle, as portrayed in Rev 17-19. In this work, the author makes an important contribution to the intertextual debate on Old and New Testament texts as well as to the research on gender and the portrayal of cities. German description: Babylon ist mehrfach explizit behandeltes Thema biblischer Texte, mehr als eine geographische Entität. Die Bedeutungsebenen Stadt, Reich, Prinzip, Kultur und Frau sind in den verschiedenen Texten unterschiedlich ausgearbeitet und doch oft verschmolzen, insbesondere in Jer 50-51; Offb 17-19 und vollends in den dominanten Rezeptionsgeschichten Europas. In ausführlichen Analysen der Texte Gen 11,1-9; Ps 137; Jes 13,14-27; 21,1-10,11-12,1-25,1-38; 50,1-51,64; Sach 5,5-11 und Offb 17,1-19,10 arbeitet Ulrike Sals heraus, wie Babylon textimmanent und intertextuell gezeichnet ist: die alttestamentlichen Texte antworten darauf, dass sie zusammengesellen eine Biographie Babylons als Stadt bzw. Reich, Frau und Prinzip zeichnen. Dies ist in Offb 17-19 mit neuen theologischen Ausrichtungen und unter Einbeziehung von Texten umgesetzt. Die Autorin bietet mit dieser Studie einen Beitrag zur Intertextualitätsdebatte alt- und neutestamentlicher Texte sowie zur Gender-Forschung und zur Representation von Babylon.
