**The Forest Ranger's  
Promise** Oct 11 2020

Managing a Wyoming sheep ranch and a feisty little girl isn't easy for widow Melanie MacAllister. The last thing she needs is yet another forest ranger to stir up trouble for the ranchers. But when she meets single dad Scott Ennison and his daughter, she realizes there's something special about this ranger. Scott has vowed to protect the land and the ranchers his predecessors have alienated in the past. Yet no one wants to trust him—except courageous Melanie. Together they'll prove that a rancher and a ranger can become neighbors, friends...maybe even a family.

*New Scientist* Oct 30 2019

New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences". The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the context of society and culture.

### **Flying the Bell 206**

**JetRanger** Aug 09 2020 This book is not a substitution for the helicopter flight manual and should not be treated as such. It is intended to give further information relating to the different sections of the flight manual and to explain the helicopter systems more clearly. I have added in some extra information where I felt it would be beneficial but overall I have tried to keep the book as simple as possible while still covering all the sections in the flight manual. This book will not teach you how to fly the aircraft. However it will give you the necessary technical information to conduct your flight safely. It is written with the new Jet Ranger pilot in mind. It is assumed that you already hold your private pilot's licence and have limited or no previous Jet Ranger experience. You should be

familiar with flying techniques, as this book will not teach you how to fly.

### **Park Ranger's Guide to Nature & Wildlife**

### **Photography** Nov 23 2021

Douglass Owen shares his expertise as a nature photographer, teacher, and ranger for the National Park Service. In his nearly twenty years as a park ranger Craters of the Moon National Monument and Preserve in Idaho, Doug taught countless park visitors how boosting their skills as naturalists could improve their results as photographers. In this guide, readers everywhere can take advantage of the same training and master the field craft that enables top photographers to great wildlife shots—even with

**Download File [vortech.io](http://vortech.io) on December 5, 2022 Read Pdf Free**

modest gear. In fact, Doug's approach actually favors those with simple equipment that frees them to concentrate on the subject and environment rather than fiddling with complex camera settings!

Whether you are an accomplished image-maker or taking your first nature shots, the practical advice and techniques in this no-nonsense book will increase your odds of

finding great subjects, prepare you to document them beautifully, and enhance your overall experience while working in the field.
