It cut out the nonsense I've seen in some of the other books and showed me what I needed to know. I purchased it several months ago, lost it, and actually bought another one because I liked the format so much. Thanks to you, I'm graduating on time with my Bachelors degree. The woman in the Records office at my college looked and me and said, "Do you know how many of the students would kill to do what you just did?" I'd recommend your book to anyone who has a good understanding of the material who doesn't want to waste their time in a semester class. -Bryanna G.
