1968 Shelby Mustang GT350, GT500 and GT500KR Aug 08 2020 There were Mustangs, and then there were Mustangs. Ford wanted its new little Pony Car to appeal to the masses, and in executing that plan, the Mustang could be had in anything from a plain-Jane version with an economical 6-cylinder engine (often referred to as a "secretary's car"), all the way up to the sporty GT models with optional 271-hp V-8s. Unfortunately, although road-going Mustangs were considered sporty, they were not officially sports cars, at least according to the Sports Car Club of America (SCCA). And Lee Iacocca knew that on-track performance led to showroom performance, so he needed to go racing. Enter Carroll Shelby. Shelby worked with the SCCA to modify the Mustang to meet the SCCA's requirements and enter the racing arena. The result was the now-legendary Shelby Mustang. This volume of CarTech's In Detail series covers the 1968 Shelby GT350, GT500, and GT500KR. In 1968, Ford sought to take over much of the process of producing Shelby Mustangs and increased that production dramatically to meet anticipated sales demand, so it was a bit of a transition year. In an effort to appeal to muscle car fans rather than race fans, the cars were losing their edgy race car feel and were becoming more high-end performance road cars with a long list of performance and comfort options including 428 Cobra Jet Engines, automatic transmissions, and air conditioning. They may have no longer been sports cars, but they were now fantastic muscle cars. As in all In Detail Series books, you get an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, and an in-depth study of all hardware and available options, as well as an examination of where the car is on the market today. Also included is an appendix of paint and option codes, VIN and build tag decoders, as well as production numbers.

Mustang 5.0 Performance Projects Oct 02 2022 From America's cultural gatekeeper comes a profile of the man who defines the nation's soul. David Remnick, Pulitzer Prize-winning writer and editor of 'The New Yorker', applies his unique journalistic voice to paint a portrait of rock legend and working-class poet Bruce Springsteen. The result is what 'Rolling Stone' called 'one of the most thorough profiles of Springsteen ever published'. Remnick shadows Springsteen from his recent Wrecking Ball world tour, the whole way back to the beginning, back to Asbury Park, to childhood rock'n'roll fantasies. Details of Springsteen's strained relationship with his father, his battle with mental illness, his marriage, and the joys and anguish of friendships forged and lost with ephemeral E Street Band members, are all delicately woven through a career that spans over four decades as America's working-class hero. We Are Alive not only tells the story of a living legend, but also produces an insight into the heart of America, the drive of self-transformation and renewal. Remnick has created an important text on the history of music. 'One of the most thorough profiles of Springsteen ever published.' Rolling Stone
