**The Music of Francis Poulenc (1899-1963)** Aug 27 2019 The name of Francis Poulenc (1899-1963) was first brought to prominence in the 1920s as a member of Les Six, a group of young French composers encouraged by Satie and Cocteau. His subsequent fame spread well beyond France, and he is coming to be regarded as one of this century's most significant composers. His compositions are heard constantly in concert halls the world over, and numerous recordings, including complete sets of songs and piano music, have been released. Books, articles and more than a dozen doctoral dissertations have discussed his music. Carl Schmidt's catalogue of Poulenc's works represents the first comprehensive attempt to list an oeuvre which numbers approximately 185 compositions written from his teenage years until his death at the age of 63. The Catalogue identifies a number of unpublished works, and adds a small group of compositions to his musical canon for the first time. Each work, whether complete or unfinished, published or unpublished, is described fully. Catalogue entries list and describe all known printed editions (including reprints) and manuscript copies of each work. In addition, they provide detailed compositional histories based on numerous letters, documents, and press accounts, many of which have not been published previously. Russian interest in Poulenc's music, manifested in press runs

exceeding one million copies, is also revealed for the first time.

Obaysch Feb 23 2022 In 1850, a baby hippopotamus arrived in England, thought to be the first in Europe since the Roman Empire, and almost certainly the first in Britain since prehistoric times. Captured near an island in the White Nile, Obaysch was donated by the viceroy of Egypt in exchange for greyhounds and deerhounds. His arrival in London was greeted with a wave of 'hippomania', doubling the number of visitors to the Zoological Gardens almost overnight. Delving into the circumstances of Obaysch's capture and exhibition, John Simons investigates the phenomenon of 'star' animals in Victorian Britain against the backdrop of an expanding British Empire. He shows how the entangled aims of scientific exploration, commercial ambition, and imperial expansion shaped the treatment of exotic animals throughout the nineteenth and early twentieth centuries. Along the way, he uncovers the strange and moving stories of Obaysch and the other hippos who joined him in Europe as the trade in zoo animals grew.

**Gentlemen on the Prairie** Jun 05 2020 In the 1880s, the well-connected young Englishman William B. Close and his three brothers, having bought thousands of acres of northwest Iowa prairie, conceived the idea of enticing sons of Britain's upper classes to pursue the life of the landed gentry on these fertile acres. "Yesterday a wilderness, today an empire": their bizarre experiment, which created a colony for people "of the better class" who were not

in line to inherit land but whose fathers would set them up in farming, flourished in Le Mars, Iowa (and later in Pipestone, Minnesota), with over five hundred youths having a go at farming. In *Gentlemen on the Prairie*, Curtis Harnack tells the remarkable story of this quite unusual chapter in the settling of the Midwest. Many of these immigrants had no interest in American citizenship but enjoyed or endured the challenging adventure of remaining part of the empire while stranded on the plains. They didn't mix socially with other Le Mars area residents but enjoyed such sports as horse racing, fox hunts, polo, and an annual derby followed by a glittering grand ball. Their pubs were named the House of Lords, the House of Commons, and Windsor Castle; the Prairie Club was a replica of a London gentlemen's club, an opera house attracted traveling shows, and their principal hotel was Albion House. In St. George's Episcopal Church, prayers were offered for the well-being of Queen Victoria. Problems soon surfaced, however, even for these well-heeled aristocrats. The chief problem was farm labor; there was no native population to exploit, and immigrant workers soon bought their own land. Although sisters might visit the colonists and sometimes marry one of them, appropriate female companionship was scarce. The climate was brutal in its extremes, and many colonists soon sold their acres at a profit and moved to countries affiliated with Britain. When the financial depression in the early 1890s lowered land values and made agriculture less profitable, the colony collapsed. Harnack skillfully draws upon the founder's "Prairie Journal," company ledgers, and other records to create an engaging, engrossing story of this quixotic pioneering experiment.

Gustav Holst Jan 13 2021 First published in 2011, this text provides citations to the core Holst literature. The volume is intended for students and researchers, as well as those seeking an introduction to Holst. *Doing Honest Work in College, Third Edition* Sep 20 2021 Doing  
Honest Work in College stands on three principles: do the work you  
say you do, give others credit, and present your research fairly.  
These are straightforward concepts, but the abundance of  
questionable online sources and temptation of a quick copy-paste  
can cause confusion as to what's considered citing and what's  
considered cheating. This guide starts out by clearly defining  
plagiarism and other forms of academic dishonesty and then gives  
students the tools they need to avoid those pitfalls. This edition  
addresses the acceptable use of mobile devices on tests, the proper  
approach to sources such as podcasts or social media posts, and the  
limitations of citation management software.
