Celebrity, Convergence and Transformation Feb 10 2021 Bringing together the latest thinking on both celebrity brands and celebrity culture from academics specialising in the field of marketing, this book explores a range of insightful contexts in order to add vigour and vitality to our understanding of the connections between celebrities, markets and culture. It unpacks the identity theoretics which have their origins in the turn to celebrity culture and the spectacle and glamour of mass-media practices. In doing so, the contributors hint at new forms of individuation where the line between the virtual and the actual is blurred, and where images of celebrities construct and deconstruct themselves. This book was originally published as a special issue of the Journal of Marketing Management.

Merit, Aesthetic and Ethical Dec 31 2019 To "look good" and to "be good" have traditionally been considered two very different notions. Indeed, philosophers have seen aesthetic and ethical values as fundamentally separate. Now, at the crossroads of a new wave of aesthetic theory, Marcia Muelder Eaton introduces this groundbreaking work, in which a bold new concept of merit where being good and looking good are integrated into one.

The Abuse of Beauty Jun 16 2021 Leading art critic and philosopher Arthur Danto here explains how the anti-beauty revolution was hatched, and how the modernist avant-garde dislodged beauty from its throne. Danto argues not only that the modernists were right to deny that beauty is vital to art, but

also that beauty is essential to human life and need not always be excluded from art.

Pueblo Style and Regional Architecture Dec 23 2021 Few architectural styles evoke so strong a sense of place as Pueblo architecture. This book brings together experts from architecture and art, archaeology and anthropology, philosophy and history, considering Pueblo style not simply architecturally, but within its cultural, religious, economic, and climate contexts as well. The product of successive layers of Pueblo Indian, Spanish, and Anglo influences, contemporary Pueblo style is above all seen as a harmonious response to the magnificent landscape from which it emerged. Pueblo Style and Regional Architecture, first published in 1990, is a unique and thorough study of this enduring regional style, a sourcebook that will inform and inspire architects and designers, as well as fascinate those interested in the anthropology, culture, art, and history of the American Southwest.

Matisse and Picasso Mar 26 2022 Matisse and Picasso achieved extraordinary prominence during their lifetimes. They have become cultural icons, standing not only for different kinds of art but also for different ways of living. Matisse, known for his restraint and intense sense of privacy, for his decorum and discretion, created an art that transcended daily life and conveyed a sensuality that inhabited an abstract and ethereal realm of being. In contrast, Picasso became the exemplar of intense emotionality, of theatricality, of art as a kind of autobiographical confession that was often charged with violence and explosive eroticism. In *Matisse and Picasso*, Jack Flam explores the compelling, competitive, parallel lives of these two artists and their very different attitudes toward the idea of artistic greatness, toward the women they loved, and ultimately toward their confrontations with death.

Picasso Jan 12 2021 El autor aborda la estructura pictórica y escultórica y, sobre todo, la arquitectura del conocimiento y de la sociedad en la obra de Picasso, es decir, las estructuras de la tradición, de las diferencias raciales, sociales y culturales, de la lógica y de la tecnología, proponiendo nuevas vías para apreciar la oscilación entre orden y desorden en la obra de Picasso, así como la confrontación y el reto que su obra supuso respecto a las arquitecturas de la ortodoxia. Tal reto comienza con una serie de intervenciones que el artista protagonizó en la turbulenta historia europea de los primeros años veinte, que revelan su postura respecto a temas vitales como la raza, la diferencia cultural, la modernidad, la sexualidad y el descontento de la civilización.

An Introduction to Twentieth-Century Poetry in English Jun 28 2022 This critical survey of modern poetry from Thomas Hardy to Seamus Heaney considers both the self-consciously revolutionary innovations of Modernism and more traditional developments, taking fully into account the extent to which 'English' can no longer be equated solely with England. Scots, Welsh and Irish poetry, and poetry from Commonwealth countries such as Australia, New Zealand and the Caribbean, are recognised as equally important aspects of the diversity that characterises modern poetry in English; and, in particular, the contributions of North American poets such as Ezra Pound, William Carlos Williams, Wallace Stevens and Robert Lowell receive the major emphasis that their achievement and extensive influence warrants and attention is given to important new perspectives in the work of women poets such as Adrienne Rich, Sylvia Plath and Elizabeth Bishop.

Edinburgh Companion to Critical Theory May 04 2020 Featuring an international team of specialists on the subject, The Edinburgh Companion to Critical Theory provides a comprehensive analysis of the changing role of critical theory in the new century. Taking note of the many new theoretical

and socio-political developments in recent years, the volume conclusively demonstrates critical theory's continuing relevance across disciplines ranging from the arts and social sciences through to the hard sciences. Being theoretically informed is not an optional part of study any more, it is a necessary, central part, and *The Companion* will bring you up to date with what is happening across the spectrum of critical theory. The volume consists of eleven sections comprising twenty-eight chapters, each covering a particular branch of critical theory from Marxism through to present-day developments such as Cognitive Theory. Every chapter considers the historical development of the theory in question, explaining the main concepts and thinkers involved, before proceeding to assess where it stands in relation to current academic and socio-political concerns and debates. Outlining recent advances in each area, and the emergence of new voices, *The Companion* offers readers a welcome opportunity to reorient themselves within the history and role of critical theory in its many forms.

The Sorcerer's Apprentice Aug 07 2020 *The Sorcerer's Apprentice* is John Richardson's vivid memoir of the time he spent living with and learning from the deeply knowledgeable and temperamental art collector, Douglas Cooper. For ten years the two entertained a circle of friends that included Jean Cocteau, W. H. Auden, Tennessee Williams, and, most intriguingly, Pablo Picasso. Compulsively readable and beautifully illustrated, this book is both a triple portrait of the author, Cooper, and Picasso, and a revealing look at a crucial artistic period. James Joyce's 'Work in Progress' Mar 14 2021 The text of *Finnegans Wake* is not as monolithic as it might seem. It grew out of a set of short vignettes, sections and fragments. Several of these sections, which James Joyce confidently claimed would "fuse of themselves", are still recognizable in the text of *Finnegans Wake*. And while they are undeniably integrated very skillfully, they also function separately. In this publication history, Dirk Van Hulle examines the interaction between the private composition process and the public life of Joyce's 'Work in Progress', from the creation of the separate sections through their publication in periodicals and as separately published sections. Van Hulle highlights the beautifully crafted editions published by fine arts presses and Joyce's encouragement of his daughter's creative talents, even as his own creative process was slowing down in the 1930s. All of these pre-book publications were "alive" in both bibliographic and textual terms, as Joyce continually changed the texts in order to prepare the book publication of *Finnegans Wake*. Van Hulle's book offers a fresh perspective on these texts, showing that they are not just preparatory versions of *Finnegans Wake* but a 'Work in Progress' in their own right.

The Passion in Art Jan 30 2020 Jesus was not depicted on the cross until the early fifth century. Since then this scene has been painted or carved in sharply differing ways. With the aid of over thirty full-page plates, *The Passion in Art* explores the historical contexts and theologies that led to such differing depictions. Because the first Christians saw the Crucifixion and Resurrection of Jesus as different aspects of a unified victory over sin and death, scenes of the Passion are juxtaposed with some of the Resurrection, which again are highly varied in what they do and do not show. This is the first book to consider the Passion as portrayed in the whole sweep of Christian history. Each picture is considered both from the point of view of its context and its theological standpoint. Spanning the centuries, the images reproduced and discussed include: scenes from the Passion of Christ in the Catacombs of Domitilla, mosaics in Ravenna, the Rabbula Crucifixion and Resurrection, the Crucifixion Plaque from Metz, the Gero Crucifix, Cimabue's Crucifix, Giotto's *Noli me Tangere*, Piero della Francesca's Resurrection, the Isenheim altarpiece, Caravaggio's *Supper at Emmaus*, Rembrandt's *Christ on the Cross*, Chagall's *White Crucifixion*, contemporary paintings by Stanley Spencer, Graham Sutherland, Nicholas Mynheer,

and many more works of great acclaim.

Flapper Nov 21 2021 Flapper is a dazzling look at the women who heralded a radical change in American culture and launched the first truly modern decade. The New Woman of the 1920s puffed cigarettes, snuck gin, hiked her hemlines, danced the Charleston, and necked in roadsters. More important, she earned her own keep, controlled her own destiny, and secured liberties that modern women take for granted. Flapper is an inside look at the 1920s. With tales of Coco Chanel, the French orphan who redefined the feminine form; Lois Long, the woman who christened herself “Lipstick” and gave New Yorker readers a thrilling entrée into Manhattan’s extravagant Jazz Age nightlife; three of America’s first celebrities: Clara Bow, Colleen Moore, and Louise Brooks; Dallas-born fashion artist Gordon Conway; Zelda and Scott Fitzgerald, whose swift ascent and spectacular fall embodied the glamour and excess of the era; and more, this is the story of America’s first sexual revolution, its first merchants of cool, its first celebrities, and its most sparkling advertisement for the right to pursue happiness. Whisking us from the Alabama country club where Zelda Sayre first caught the eye of F. Scott Fitzgerald to Muncie, Indiana, where would-be flappers begged their mothers for silk stockings, to the Manhattan speakeasies where patrons partied till daybreak, historian Joshua Zeitz brings the 1920s to exhilarating life.

Eccentric Modernisms Feb 22 2022 What if we ascribe significance to aesthetic and social divergences rather than waving them aside as anomalous? What if we look closely at what does not appear central, or appears peripherally, or does not appear at all, viewing ellipses, outliers, absences, and outtakes as significant? Eccentric Modernisms places queer demands on art history, tracing the relational networks connecting cosmopolitan eccentrics who cultivated discrepant strains of modernism in America during the 1930s and 1940s. Building on the author’s earlier studies of Gertrude Stein and other lesbians who participated in transatlantic cultural exchanges between the world wars, this book moves in a different direction, focusing primarily on the gay men who formed Stein’s support network and whose careers, in turn, she helped to launch, including the neo-romantic painters Pavel Tchelitchew and writer-editor Charles Henri Ford. Eccentric Modernisms shows how these “eccentric modernists” bucked trends by working collectively, reveling in disciplinary promiscuity and sustaining creative affiliations across national and cultural boundaries.

Spanish Painting: From Velazquez to Picasso Jan 24 2022

The Success and Failure of Picasso Aug 31 2022 At the height of his powers, Pablo Picasso was the artist as revolutionary, breaking through the niceties of form in order to mount a direct challenge to the values of his time. At the height of his fame, he was the artist as royalty: incalculably wealthy, universally idolized, and wholly isolated. In this stunning critical assessment, John Berger—one of this century’s most insightful cultural historians—trains his penetrating gaze upon this most prodigious and enigmatic painter and on the Spanish landscape and very particular culture that shaped his life and work. Writing with a novelist’s sensuous evocation of character and detail, and drawing on an erudition that embraces history, politics, and art, Berger follows Picasso from his childhood in Malaga to the Blue Period and Cubism, from the creation of Guernica to the pained etchings of his final years. He gives us the full measure of Picasso’s triumphs and an unsparing reckoning of their cost—in exile, in loneliness, and in a desolation that drove him, in his last works, into an old man’s furious and desperate frenzy at the beauty of what he could no longer create.

Appreciation Jul 06 2020 Living well was the best revenge for Leo Stein, the art critic who took to heart Samuel Johnson’s dictum, “Clear your mind of cant.” Leo shared with his sister, Gertrude Stein, the Paris apartment that became a meeting place for the famous. Reflected in Appreciation: Painting, Poetry and Prose are their early years as American expatriates as well as their later estrangement. This book, originally published in 1947, the

year Leo died, includes his reminiscences and estimates of Picasso, Matisse, Cézanne, and Renoir, among others, as well as his considered views on the place of art and literature in everyday life.

Proving Darwin May 16 2021 Groundbreaking mathematician Gregory Chaitin gives us the first book to posit that we can prove how Darwin's theory of evolution works on a mathematical level. For years it has been received wisdom among most scientists that, just as Darwin claimed, all of the Earth's life-forms evolved by blind chance. But does Darwin's theory function on a purely mathematical level? Has there been enough time for evolution to produce the remarkable biological diversity we see around us? It's a question no one has yet answered—in fact, no one has even attempted to answer it until now. In this illuminating and provocative book, Gregory Chaitin argues that we can't be sure evolution makes sense without a mathematical theory. He elucidates the mathematical scheme he's developed that can explain life itself, and examines the works of mathematical pioneers John von Neumann and Alan Turing through the lens of biology. Chaitin presents an accessible introduction to metabiology, a new way of thinking about biological science that highlights the mathematical structures underpinning the biological world. Fascinating and thought-provoking, *Proving Darwin* makes clear how biology may have found its greatest ally in mathematics.

The Oxford Handbook of Higher Education Systems and University Management Oct 28 2019 The world's systems of higher education (HE) are caught up in the fourth industrial revolution of the twenty-first century. Driven by increased globalization, demographic expansion in demand for education, new information and communications technology, and changing cost structures influencing societal expectations and control, higher education systems across the globe are adapting to the pressures of this new industrial environment. To make sense of the complex changes in the practices and structures of higher education, this Handbook sets out a theoretical framework to explain what higher education systems are, how they may be compared over time, and why comparisons are important in terms of societal progress in an increasingly interconnected world. Drawing on insights from over 40 leading international scholars and practitioners, the chapters examine the main challenges facing institutions of higher education,

how they should be managed in changing conditions, and the societal implications of different approaches to change. Structured around the premise that higher education plays a significant role in ensuring that a society achieves the capacity to adjust itself to change, while at the same time remaining cohesive as a social system, this Handbook explores how current internal and external forces disturb this balance, and how institutions of higher education could, and might, respond.

The Invention of Taste Jun 04 2020 The Invention of Taste provides a detailed overview of the development of taste, from ancient times to the present. At the heart of the book is an intriguing question: why did the sensory attribute of human taste become a social metaphor and aesthetic value for judging cultural qualities of art, fashion, cuisine and other social constructions? Unique amongst the senses, taste is at once a biologically derived sense, private, personal and individual, yet also a sensibility which can be acquired, shared, and communicated. Exploring the many factors that defined the evolution of taste – from medieval morals and medicine to social and cultural philosophy, the rise of aesthetics, birth of fashion, branding trends, and luxury worship in the age of mass consumption – Luca Verzelloni’s ambitious text provides readers with an outstanding introduction to the subject, making it the cultural history of taste. Now available for the first time in English, Taste features a new final chapter and a preface by series editor David Howes. Rich in detail and examples, this interdisciplinary work is an important read for students and researchers in sensory studies, philosophy, sociology and cultural studies, as well as gastronomy, fashion, design, and branding.

Modernism for the Masses Dec 11 2020 A mural renaissance swept the United States in the 1930s, propelled by the New Deal Federal Art Project and the popularity of Mexican muralism. Perhaps nowhere more than in New York City, murals became a crucial site for the development of abstract painting. Artists such as Stuart Davis, Arshile Gorky, Willem de Kooning, and Lee Krasner created ambitious works for the Williamsburg Housing Project, Floyd Bennett Field Airport, and the 1939 World’s Fair. *Modernism for the Masses* examines the public murals (realized and unrealized) of these and other abstract painters and the aesthetic controversy, political influence, and ideological warfare that surrounded them. Jody Patterson transforms standard narratives of modernism by reasserting the significance of the 1930s and explores the reasons for the omission of the mural’s history from chronicles of American art. Beautifully illustrated with the artists’ murals and little-known archival photographs, this book recovers the radical idea that modernist art was a vital part of everyday life.
