Anal Pleasure and Health Apr 15 2021 For many years the focus of fear and disgust, the anus is actually one of the human body's most wondrous creations-elegant, efficient, and richly supplied with pleasure nerves. However, stress and ignorance can turn the anus and its functions from a source of delight into a painful disability. What's needed is an owner's manual-and here it is!Join therapist and sexologist Jack Morin, Ph.D., on this tour of the anus, complete with information and exercises to open the door to new sources of comfort and gratification. You'll unlearn habits that can cause everything from hemorrhoids to chronic pelvic pain- and, if you choose, learn new ways of achieving solo and partnered pleasures through this humblest of portals.

T. S. Eliot: A Guide for the Perplexed Aug 20 2021 T. S.

Eliot is one of the most celebrated twentieth-century poets and one whose work is practically synonymous with perplexity. Eliot is perceived as extremely challenging due to the multi-lingual references and fragmentation we find in his poetry and his recurring literary allusions to writers including Dante, Shakespeare, Marvell, Baudelaire, and Conrad. There is an additional difficulty for today's readers

that Eliot probably didn't envisage: the widespread unfamiliarity with the Christianity that his work is steeped in. Steve Ellis introduces Eliot's work by using his extensive prose writings to illuminate the poetry. As a major critic, as well as poet, Eliot was highly conscious of the challenges his poetry set, of its relation to and difference from the work of previous poets, and of the ways in which the activity of reading was problematized by his work.

RESEARCH METHODOLOGY

May 29 2022 The Book Intended to serve as a text for postgraduate students of commerce, management, and social sciences, and especially for the first-time researchers, this well-organized book deals with the variety of research methods used in management and social sciences, with particular emphasis on the implementation of these methods. It offers readers practical guidelines for research and directs them through all the stages of

flavor. TEQUILA is an all-in-one reference for the top-shelf tequila connoisseur, with chapters on the history and lore of tequila, insight into how tequila is made, an exploration of the agave fields of Jalisco, and a drinker's guide to the four types of tequila: blanco, reposado, añejo, and extra añejo. James Beard Award—winning author and chef Joanne Weir takes tequila beyond the margarita (although she opens the book with the very best margarita recipe) to a wide range of drink and food recipes. TEQUILA features more than 35 cocktails from her own repertoire, as well as contributions from some of the top tequila bartenders in the country, including classics like the Sangrita and La Batanga and novel variations like the Cable Car No. 2 and the Surly Temple. Weir also presents more than 20 tequila-infused sides, mains, and desserts, from Gazpacho with Drunken Prawns to Bay Scallop Ceviche to Tequilamisu. Join a new

A Guide to Qualitative Field Research Nov 22 2021 *A Guide to Qualitative Field Research* provides students with clear, practical, and specific instructions for conducting field research--from selecting a topic to writing the final paper. In the expanded Third Edition, Carol A. Bailey gives increased attention to the early and last stages of field research, often the most difficult: selecting a topic, deciding upon the purpose of your research, and writing the final paper, with a generous number of examples to help readers to generate ideas. While the author's primary focus is face-fo-face field research, she acknowledges that the concept of the "field" has expanded over recent decades to include virtual settings, and so research in the digital world is discussed. Compared to earlier editions which focused solely on an undergraduate

the reader who persists will find it worth the effort. The Guide is intended to be read in conjunction with Capital (though it can be read on its own). It goes through Marx's masterpiece, chapter by chapter, setting each in the context of the whole and picking out the main threads of the argument. Each of Marx's technical terms is explained when it is first used and is also defined in the glossary for easy reference. The introduction outlines the development of Marx's thought and relates it to the philosophical, political and economic ideas of his time. The Guide does not take sides for Marx or against him. Its aim is to contribute to a better understanding of his work.

for the reader to make good choices, practice effectively, and find meaning in planning work. Built around concepts of idealism and realism, the book takes on the gap between the expectations and the constraints of practice. How to make an impact? How to decide when to compromise and when to fight for a core value? The book advises on career "launching" issues: doubt, decision-making, assessing types of work and work settings, and career planning. Then it explains principled adaptability as professional style. Subsequent chapters address early-practice issues: being right, avoiding wrong, navigating managers, organizations and teams, working with mentors, and understanding the career journey. Underpinning these dimensions is a call for planners to reflect on what they are doing as they are doing it. The advice provided is based on the experience of a planning professor who has also practiced planning throughout his career. The

book includes personal anecdotes from the author and other planners about how they launched and managed their careers, and discussion/reflection questions for the reader to consider.

Political Theology: A Guide for the Perplexed Jun 17 2021

There is an increasingly intense interest in political theology amongst contemporary scholars and students. Yet, while there are many authors engaging in political theology, there are very few resources about political theology which aim to orient students and other recent new-comers to the field. This is a concise and accessible advanced introduction which distinguishes various approaches to political theology, and which explores several of the central issues addressed in political theologies. Theological students will be able to approach courses and readings in political theology with a renewed confidence with this overview in hand.

self-destructive. Self-help books tell you not to fight - but not why battles are so addictive. They tell you to bin your baggage and be positive - but if that is all you do, you can't have any memories of past good times, or of any joint achievements. They tell you to reach out and find someone new - but not until you've done the emotional work can you risk being open to a new partner. Nor do they remind you of the threat to self-esteem of brief flings. Break-up and divorce can also offer an opportunity for growth - whether originally looked for, or not. You need to find your resources (including how to manage feelings of panic, loneliness, guilt and grief) and re-find your self-worth. Abraham Lincoln said that "sucess in life consists of moving from one failure to another without losing enthusiasm". This book shows you how.

A Guide to the Good Life:

The Ancient Art of Stoic Joy

Mar 15 2021 One of the great fears many of us face is that despite all our effort and striving, we will discover at the end that we have wasted our life. In *A Guide to the Good Life*, William B. Irvine plumbs the wisdom of Stoic philosophy, one of the most popular and successful schools of thought in ancient Rome, and shows how its insight and advice are still remarkably applicable to modern lives. In *A Guide to the Good Life*, Irvine offers a refreshing presentation of Stoicism, showing how this ancient philosophy can still direct us toward a better life. Using the psychological insights and the practical techniques of the Stoics, Irvine

offers a roadmap for anyone seeking to avoid the feelings of chronic dissatisfaction that plague so many of us. Irvine looks at various Stoic techniques for attaining tranquility and shows how to put these techniques to work in our own life. As he does so, he describes his own experiences practicing Stoicism and offers valuable first-hand advice for anyone wishing to live better by following in the footsteps of these ancient philosophers. Readers learn how to minimize worry, how to let go of the past and focus our efforts on the things we can control, and how to deal with insults, grief, old age, and the distracting temptations of fame and fortune. We learn from Marcus Aurelius the importance of prizing only things of true value, and from Epictetus we learn how to be more content with what we have. Finally, *A Guide to the Good Life* shows readers how to become thoughtful observers of their own lives. If we watch ourselves as we go about our
