**Psychological Assessment in the Workplace** Jun 03 2020 This book covers the assessment of people within the workplace. Written in jargon free language, it offers a guide to psychological assessment that can be used by managers in their everyday work. Each chapter will specifically cover an assessment practice and then explore the issues surrounding it, following this discussion with a case study. Ideas for test selection, guidance on assessment centre practice and illustrations of successfully worked exercises are also included.

**Energy Conservation Solutions for Fog-Edge Computing Paradigms** May 27 2022 This book focuses on energy efficiency concerns in fog-edge computing and the requirements related to Industry 4.0 and next-generation networks like 5G and 6G. This book guides the research community about practical approaches, methodological, and moral questions in any nations' journey to conserve energy in fog-edge computing environments. It discusses a detailed approach required to conserve energy and comparative case studies with respect to various performance evaluation metrics, such as energy conservation, resource allocation strategies, task allocation strategies, VM migration, and load-sharing strategies with state-of-the-art approaches, with fog and edge networks.

**Conserving Energy with Trees** Nov 28 2019 Tree planting is an effective way of improving our immediate environment and generating savings on energy bills. It is also an important measure that helps improve the quality of the global environment, since trees contribute in several ways to reducing environmental impacts caused by the use of fossil fuels. This brochure is for those who would like to save energy by planting trees. It gives enough information to help you to grow trees and shrubs around your home as well as in the open spaces in your area.
