Abortion care guideline Nov 22 2021 The objective of this guideline is to present the complete set of all WHO recommendations and best practice statements relating to abortion. While legal, regulatory, policy and service-delivery contexts may vary from country to country, the recommendations and best practices described in this document aim to enable evidence-based decision-making with respect to quality abortion care. This guideline updates and replaces the recommendations in all previous WHO guidelines on abortion care. **Research-based Web Design & Usability Guidelines** Jun 17 2021 Although recent findings show the public increasingly interacting with government Web sites, a common problem is that people can't find what they're looking for. In other words, the sites lack usability. The Research-Based Web Design and Usability

Guidelines aid in correcting this problem by providing the latest Web design guidance from the research and other forms of evidence. This unique publication has been updated from its earlier version to include over 40 new or updated research guidelines, bringing the total to 209. Primary audiences for the book are: Web managers, designers, and all staff involved in the creation of Web sites. Topics in the book include: home page design, page and site navigation, graphics and images, effective Web content writing, and search. A new section on usability testing guidance has been added. Experts from across government, industry, and academia have reviewed and contributed to the development of the Guidelines. And, since their introduction in 2003, the Guidelines have been widely used by government, private, and academic institutions to improve Web design.

Guideline on Formatting, Assembling, and Submitting New Drug and Antibiotic Applications Nov 03 2022

IFLA Guidelines for Online Public Access Catalogue (OPAC) Displays Jan 01 2020 Existing Online Public Access Catalogues (OPACs) demonstrate differences in the range and complexity of their functional features, terminology, and help facilities. While many libraries already have OPACs, there is a need to bring together, in the form of guidelines or recommendations, a corpus of good practice to assist libraries in designing or re-designing the displays for their OPACs, taking into consideration the needs of users. The audience for these guidelines is librarians charged with customizing OPAC software and vendors and producers of this software. The guidelines are mainly designed for general libraries with collections of resources in the humanities, the social sciences, and the pure and applied sciences. The guidelines are intended to apply to any type of catalogue, independently of the kind of interface and technology used.

Sentencing Guidelines Dec 24 2021 The politics of criminal sentencing has recently crystallised around the issue of whether and how a system of structured sentencing should inform judicial approaches to punishing criminals. Increasingly, structured sentencing guidelines are being introduce to frame judicial discretion. This volume is the first to examine the experience in England and Wales in the light of international developments. This collection of essays begins with a clear and concise history of the guidelines as well as a description of how they function. Topics addressed include the effect of guidelines on judicial practice, the role of public opinion in developing sentencing guidelines, the role of the crime victim in sentencing guidelines, and the use of guidelines by practicing barristers. In addition, the international dimension offers a comparative perspective: the English guidelines are explored by leading academics from the United States and New Zealand. Although there is a vast literature on sentencing guidelines across the United States, the English guidelines have attracted almost no attention from scholars. As other jurisdictions look to introduce more structure to sentencing, the English scheme offers a real alternative to current US schemes. Contributors include practicing lawyers, legal and socio-legal academics, and also scholars from several other countries including New Zealand and the United States, providing a multidisciplinary and cross-jurisdictional approach to sentencing. This book will be of interest to academics from law, sociology and criminology, legal practitioners, and indeed anyone else with an interest in sentencing, around the world.

A Directory of Impact Assessment Guidelines Jan 13 2021

Royal College of Speech & Language Therapists Clinical Guidelines Mar 15 2021 The aim of these guidelines is to provide clinicians, managers and service users with statements regarding the clinical management of specific disorders or conditions and in some instances, particular populations. The guidelines assist in the clinical decision-making process by providing information on what is considered to be the minimum best practice. Each guideline contains recommendations that are explicit statements providing specific clinical guidance

on the assessment and management of each area. Each recommendation is supported by evidence from the literature or is based upon the consensus of clinical experts. Sections include: Pre-School children with communication, language speech needs; School-aged children with speech, language communication difficulties; Autistic spectrum disorders; Cleft palate and velopharyngeal abnormalities; Clinical voice disorders; Deafness/hearing loss; Disorders of fluency; Disorders of feeding, eating, drinking swallowing (dysphagia); Disorders of mental health dementia; Dysarthria; Aphasia; Head neck cancer. A Position Statement on working with Adults with Learning Disabilities is included in place of a guideline. Every practising UK speech language therapist needs to have access to these guidelines, and they will also be of value to health, social and educational professionals that may become involved with individuals who have a communication or swallowing disorder.

Guidelines for Describing Information Interchange Formats Feb 23 2022

Quick Guideline to Prepare Paperback Book Interior and Cover Files Using Different Applications Jan 25 2022 In order to publish and sell a Book on any publishing website, you need a ready-to-print PDF layout that supports all the requirements of the publisher system. You can create the PDF independently or use other production software like InDesign, or you can buy a paid professional production service.Book cover creation is the very last creative step when publishing a book. Thats because almost everything about the anatomy of a book cover is controlled by the final, edited version of the book: the trim size, paper color and number of pages all determine your covers dimensions. You need to design the cover after the final draft is finished. Book cover design is comprised of text and images. You must note: the front cover, back cover, spine, layout, picture, fonts, and other elements of the cover.The book consists of manuscript and cover. On the publishing website, you can upload your manuscript. The publishing website will automatically convert the manuscript to proofed PDF prior to publishing/printing. Depending on the publishing website, you can create your book cover using Cover Creator tool or submit your book cover in a PDF.Publishing Print books at KDP amazon kdp.amazon.com, Lulu.com and notionpress.com is straightforward, as you can just upload your manuscript as a PDF, DOC, DOCX, RTF, HTML, or TXT file. Kdp.amazon.com, notionpress.com and Lulu.com will automatically convert these file types to PDF prior to publishing/printing. You can create your book cover using Cover Creator tool within the websites. The free Cover Creator helps you to create and customize your eBook, paperback, or hardcover cover with a variety of layouts and fonts. Cover Creator uses the book details you enter during title setup and adds your book's ISBN to the barcode area on the back coverBut other publishing websites such as streetlib.com, ingramspark.com, blurb.com, press.barnesandnoble.com and feiyr.com requires from the authors to prepare the Paperback book manuscript in PDF format, and to design and submit the book cover in a PDF format according to their specifications. So, the author must have good knowledge on the formatting requirements for the book interior, and needs to create a paperback cover, using design software to be able to publish in such websites.So, when you create a paperback book, you need to format and upload two files: a manuscript file, which is the interior of your book, and a cover file, which is the outside of your book including the front, back, and spine. Here I will provide the steps on how to format both files, plus tools and resources to help you get started.The report consists from the following sections:1. Book spine width calculator.2.Online cover calculators.3.Creating Barcode for the book ISBN.4.Interior and cover files specifications for publishing at KDP amazon and using the online cover creator at KDP amazon.5.Interior and cover files specifications for publishing at Lulu.com and using the online cover creator at Lulu.com.6.Quick guideline for creating a bleed for your publication on Microsoft Word.7.Quick guideline for creating a bleed for your publication on Adobe applications and other applications.8.Configuring Word so that it doesn't compress images.9.Streetlib.com

Paperback book specifications.10.Feiyr.com cover templates for print on demand books.11.Creating paper cover using Canva.com.12.Creating paper cover using Adobe Illustrator.13.Creating paperback cover using Paint.net Application.14.Creating paperback cover using Adobe Photoshop Application.15.Creating paperback cover using Adobe InDesign Application.16.Creating paperback interior document using Adobe InDesign Application.17.Creating paperback interior and cover using Adobe InDesign blurb book creator.18.References.

Computer-based Medical Guidelines and Protocols Sep 20 2021 The book consists of two parts. The first part consists of 9 chapters which together offer a comprehensive overview of the most important medical and computer-science aspects of clinical guidelines and protocols. The second part of the book consists of chapters that are extended versions of selected papers that were originally submitted to the ECAI-2006 workshop 'AI Techniques in Health Care: Evidence-based Guidelines and Protocols.'

APA 7th Quick Study Guidelines in Tables for Class Aug 27 2019 "APA 7th Quick Study Guidelines in Tables for Class" are 16 big colorful sheets (8''x11'') of tables specifically designed for the updated edition of the APA Publication Manual (7th edition). Revised according to the 7th edition of the APA Manual, these guidelines are offering 16 big sheets (8''x11'') with tables covering general format and examples of: - paper layout, - title page, - abstract, - contents, - headings, - in-text citations, - quotations, - reference list, - footnotes, - lists, - tables and figures, - notes, - appendices, etc. This student guide reflects the newest version of the APA Manual and will address the vast majority of questions about using APA 7th edition correctly with80+ examples of references.

Clinical Practice Guidelines We Can Trust Apr 27 2022 Advances in medical, biomedical and health services research have reduced the level of uncertainty in clinical practice. Clinical practice guidelines (CPGs) complement this progress by establishing standards of care backed by strong scientific evidence. CPGs are statements that include recommendations intended to optimize patient care. These statements are informed by a systematic review of evidence and an assessment of the benefits and costs of alternative care options. Clinical Practice Guidelines We Can Trust examines the current state of clinical practice guidelines and how they can be improved to enhance healthcare quality and patient outcomes. Clinical practice guidelines now are ubiquitous in our healthcare system. The Guidelines International Network (GIN) database currently lists more than 3,700 guidelines from 39 countries. Developing guidelines presents a number of challenges including lack of transparent methodological practices, difficulty reconciling conflicting guidelines, and conflicts of interest. Clinical Practice Guidelines We Can Trust explores questions surrounding the quality of CPG development processes and the establishment of standards. It proposes eight standards for developing trustworthy clinical practice guidelines emphasizing transparency; management of conflict of interest ; systematic review-guideline development intersection; establishing evidence foundations for and rating strength of guideline recommendations; articulation of recommendations; external review; and updating. Clinical Practice Guidelines We Can Trust shows how clinical practice guidelines can enhance clinician and patient decision-making by translating complex scientific research findings into recommendations for clinical practice that are relevant to the individual patient encounter, instead of implementing a one size fits all approach to patient care. This book contains information directly related to the work of the Agency for Healthcare Research and Quality (AHRQ), as well as various Congressional staff and policymakers. It is a vital resource for medical specialty societies, disease advocacy groups, health professionals, private and international organizations that develop or use clinical practice guidelines, consumers, clinicians, and payers.

The American Psychiatric Association Practice Guidelines for the Psychiatric Evaluation of Adults, Third Edition Apr 15 2021 Since the publication of the Institute of Medicine (IOM) report Clinical Practice Guidelines We Can Trust in 2011, there has been an increasing emphasis on assuring that clinical

practice guidelines are trustworthy, developed in a transparent fashion, and based on a systematic review of the available research evidence. To align with the IOM recommendations and to meet the new requirements for inclusion of a guideline in the National Guidelines Clearinghouse of the Agency for Healthcare Research and Quality (AHRQ), American Psychiatric Association (APA) has adopted a new process for practice guideline development. Under this new process APA's practice guidelines also seek to provide better clinical utility and usability. Rather than a broad overview of treatment for a disorder, new practice guidelines focus on a set of discrete clinical questions of relevance to an overarching subject area. A systematic review of evidence is conducted to address these clinical questions and involves a detailed assessment of individual studies. The quality of the overall body of evidence is also rated and is summarized in the practice guideline. With the new process, recommendations are determined by weighing potential benefits and harms of an intervention in a specific clinical context. Clear, concise, and actionable recommendation statements help clinicians to incorporate recommendations into clinical practice, with the goal of improving quality of care. The new practice guideline format is also designed to be more user friendly by dividing information into modules on specific clinical questions. Each module has a consistent organization, which will assist users in finding clinically useful and relevant information quickly and easily. This new edition of the practice guidelines on psychiatric evaluation for adults is the first set of the APA's guidelines developed under the new guideline development process. These guidelines address the following nine topics, in the context of an initial psychiatric evaluation: review of psychiatric symptoms, trauma history, and treatment history; substance use assessment; assessment of suicide risk; assessment for risk of aggressive behaviors; assessment of cultural factors; assessment of medical health; quantitative assessment; involvement of the patient in treatment decision making; and documentation of the psychiatric evaluation. Each guideline recommends or suggests topics to include during an initial psychiatric evaluation. Findings from an expert opinion survey have also been taken into consideration in making recommendations or suggestions. In addition to reviewing the available evidence on psychiatry evaluation, each guideline also provides guidance to clinicians on implementing these recommendations to enhance patient care.

APA/MLA Guidelines (Speedy Study Guides) Jun 29 2022 When writing at a higher level, students are expected to use APA and/or MLA formatting so as not to plagiarize. Having a study guide that outlines the rules of each particular formatting style can help students learn the basics as well as when to use quotations, and how to do proper citations. This will help students from having to read through volumes of books to know how to do a proper citation.

Clinical Practice Guidelines for Midwifery & Women's Health Jul 31 2022 Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Clinical Practice Guidelines for Midwifery & Women's Health, Fourth Edition is a trusted quick reference guide to midwifery and well woman care. Completely updated and revised, this new edition reflects the rapidly changing clinical environment. It addresses documentation and risk management to aid in decision-making and appropriate document care. Convenient and easy-to-use, this new edition encompasses traditional, empirical, and evidence-based practice to meet the needs of a broad range of new and experienced practitioners and patients. * Meets the recommendations of the American College of Nurse–Midwives (ACNM) and the Midwives Alliance of North America (MANA) for written policies and/or practice guidelines * Reflects current and emerging midwifery and women's health practice * Provides support and guidance for daily clinical decision making

MLA 9th Citations and Works Cited Guidelines Jan 31 2020 "MLA 9th Citations and Works Cited Guidelines: Formatting and Style Guide to MLA Handbook (9th edition)" is specifically designed for students and professional writers to quickly learn updated MLA Style guidelines for in-text citations and Works Cited list in a convenient and easy way. With this guide, you will be able to format your references according to the MLA style right away thanks to its easy-to-navigate structure and step-by-step guidelines. This book offers general guidelines and multiple examples that allow writers: - to cite any type of work; - to learn more about in-text citations, quoting, paraphrasing; - to create Works Cited list in MLA format; - to format Annotated Bibliography, etc. Includes MLA-formatted Sample Paper.

Recommended Guidelines for the Collection and Use of Geospatially Referenced Data for Airfield Pavement Management May 29 2022 TRB's Airport Cooperative Research Program (ACRP) Report 39: Recommended Guidelines for the Collection and Use of Geospatially Referenced Data for Airfield Pavement Management offers recommended guidelines for the collection and use of geospatially referenced data for airfield pavement management. The guidelines provide a data schema, data collection methods, data quality requirements, and other relevant information required for developing specifications and standards for integrating geospatial data into pavement management systems. Appendixes A through C to ACRP Report 39 are available online. Titles of the appendixes are as follows: Appendix A: Survey Questionnaire; Appendix B: Questionnaire Responses; Appendix C: Pavement Management Systems Software Data Elements.

Clinical Practice Guidelines for Midwifery & Women's Health Mar 27 2022 Clinical Practice Guidelines for Midwifery & Women's Health, Fifth Edition is an accessible and easy-to-use quick reference guide for midwives and women's healthcare providers. Completely updated and revised to reflect the changing clinical environment, it offers current evidence-based practice, updated approaches, and opportunities for midwifery leadership in every practice setting. Also included are integrative, alternative, and complementary therapies. The Fifth Edition examines the transition to the use of ICD-10 codes, women's health policy and advocacy, risk assessment and decision-making in practice, and inspiring trust in midwifery care. New clinical practice guidelines include health promotion and primary care practice, such as promoting restorative sleep, optimizing oral health, promoting a healthy weight, and caring for the woman with a substance abuse disorder.

Documenting and scaling up knowledge and innovations – Guidelines and templates Mar 03 2020 Assessing or understanding the agriculture innovation system (AIS) is an essential step to better understand the needs, new skills and functions needed by the actors and the system. To accelerate the uptake of innovation and progress towards eradicating poverty, there is an urgent need for well-coordinated, demand-driven, and market-oriented information, knowledge, technologies and services. This document includes a set of information, templates and resources that aim to assist agricultural Innovation systems actors, stakeholders, producers, farmers to develop and share impactful stories. It guides actors and organizations across all sectors in the innovation system to collect and document case studies, success stories, good practices and lessons learned from the project initiatives, trainings and others actions. It highlights scaling-up elements so that other actors can replicate these innovations with a view to scale-up, particularly the stakeholders and actors involved in the

DeSira project, through knowledge exchange and sharing.

Oversight on the U.S. Sentencing Commission and Guidelines for Organizational Sanctions Feb 11 2021

Guidelines for Postrelease Mitigation Technology in the Chemical Process Industry Oct 10 2020 This book puts together a body of very recent information never before presented in one volume on the design of post-release mitigation systems. The development of a fundamental knowledge base on post-release

mitigation systems, through testing and data correlation, is very new. While further research and development is needed, this practical work offers guidance on putting post-release countermeasures to work now. The book presents current engineering methods for minimizing the consequences of the release of toxic vapors, or ignition of flammable vapors, including passive and active systems intended to reduce or eliminate significant acute effects of a dispersing vapor cloud in the plant facility, or into the surrounding community. As in all CCPS works, the book emphasizes planning and a systems approach, shows limitations of any methods discussed, and provides numerous references so that the reader may continue to learn.

International Cooperation, Convergence and Harmonization of Pharmaceutical Regulations Nov 10 2020 International Cooperation, Convergence and Harmonization of Pharmaceutical Regulations: A Global Perspective provides the current status of the complex and broad phenomenon of cooperation, convergence and harmonization in the pharmaceutical sector (Part I), thoroughly evaluates its added value and its critical parameters and influencing factors (Part II) in order to recommend actions and measures to support the next steps for cooperation, convergence and harmonization (Part III). All of these recommendations in the book support the establishment of a better coordinated global pharmaceutical system which represents the best realistic alternative to fulfill the objective to establish a global coalition of regulators and to respond to an increased demand to further cooperation in the pharmaceutical sector. This proposed framework, which leverages all of the ongoing positive cooperation initiatives and uses as foundations all of the numerous harmonization projects developed over the years, presents advantages for all stakeholders and would definitively have significant added value to the promotion and protection of global public health. The status of all major worldwide harmonization and cooperation initiatives (at bilateral, regional, and global levels) The value of cooperation in the pharmaceutical sector and the driving factors behind harmonization The proposition of a structure for the global

pharmaceutical system and timely recommendations for enhancing international cooperation, as well as further discussion and policy changes in this area

Operational Guidelines Jun 25 2019
